

All Household Roads Lead to Kitchen Work

NINE-TENTHS of kitchen labor and worry is caused by ill-working cook stoves and ranges; by ranges that draw poorly; that have such complicated drafts that only a skilled mechanic can manage them; whose grates are so constructed that it is a strong man's work to shake them down; ranges which work well when the wind is in a certain direction, but act like a fiend at other times; ranges whose work is so unreliable that the housekeeper is in a constant nerve-racking worry lest the meals be late or the baking spoiled.

The Pandora range is built to make work easy, a child can shake it down; its drafts are so simple that one learns them in a minute; its heat is kept in the range so effectively that you can do a big baking and hardly know there is a fire in it two feet away; it keeps the kitchen cool; it saves you worry; it saves you time and money; it saves you backaches and headaches, because it is so easy to manage and so reliable.

The Pandora makes kitchen work easy.
