**DAIRYING**  
January 3 to March 25, 1910

BUTTERMaking, JAN. TO MAR., 1909.

OUR farmers, at the present time, more than ever before, are feeling the need of a comprehensive agricultural training. It is the trained man who is in demand. At our Short Course a large amount of instruction is crowded into a brief period. Classes and laboratory work extend from 8.30 a. m. to 5 p. m. each day except Sunday, and the evenings are devoted to illustrated lectures and the discussion of topics suggested by those in attendance. This is an intensified system, and a modern method of practical instruction to busy, practical men whose lives are devoted to agricultural pursuits. Many prominent agriculturists have attended these sessions annually. We believe the work furnished this coming winter will be more practical and popular than at any previous session.

#### SPECIAL RAILWAY RATES.

We expect the attendance will be sufficient to warrant your obtaining a special class fare. It is important that you should be careful to secure the lowest possible fare, and to have the certificate issued at the office of the Secretary during the progress of the Course.

#### Send a Post Card TO-DAY

Asking for illustrated calendar. It will be mailed free on application to:

**G. C. Creelman, President.**
