

DE LAVAL SEPARATORS.

THE KIND THE CREAMERYMEN USE.

The difference between "The De Laval Separator" and others is just the difference between the perfected principle of milk separation as embodied in the "Alpha Disc" and "Split Wing" Patents and the poor imitating device in other machines which these patents hold at an infinite distance.

The "Alpha Disc" and "Split Wing" Patents, together with all-round wearing qualities, have placed De Laval Separators in 98% of the creameries on our continent, and won for them Highest Awards at all World's Expositions.

You can get a De Laval for the price of the inferior make. Then WHY NOT HAVE THE BEST?

GOSSIP.

A gentleman riding with an Irishman came within sight of an old gallows, and to display his wit, said:

"Pat, do you see that?"

"To be sure Oi do," replied Pat.

"And where would you be to-day if the gallows had its due?"

"Oi'd be riding alone," replied Pat.

Mr. A. Graham, of the Forest Home Farm, Pomeroy, reports that the herd of Shorthorns have come through the winter in good form. "At the present time, the herd numbers about 50 head. Representatives of such noted families as the Duchesses of Gloster, Missies, Roses of Autumn, Rosamonds, Urys, Isabellas, Cowslips, Cecellias and Victorias find a home in this herd.

"The present stock bulls in use are Golden Standard and Manitoba Chief. The latter bull has proved himself years ago to be one of the best stock bulls in the West. The younger stuff in the herd bear testimony to the fact that Golden Standard is a remarkably good stock bull. The present offerings are two young bulls by Robbie o' Day, two by Manitoba Chief, two by Golden Standard, and one by Veracity. We are anxious to clear out this lot of bulls within the next six weeks, and in order to do so, will quote prices away down. Also some choice cows and heifers at low prices.

"The demand for Yorkshire breeding sows has been so keen that everything in farrow that could be spared has gone. We have a couple of fall boars and a few sows the same age, and a nice lot of spring pigs to offer. While east, we selected from the herd of H. J. Davis, of Woodstock, three head of Yorkshires that should be a valuable acquisition to the herd. For stock boar we got the young boar, Woodstock Emperor, sire Ruddington Emperor (imp.), bred by Philo L. Mills, Ruddington, Hall England, dam by Ruddington Lad (imported by the same breeder). This is a choice young hog and should make his mark on the herd.

"One of the young sows, Dalmeny Gem (imp.), was bred by the Earl of Roseberry, Dalmeny Park, Edinburgh, Scotland. This is a young sow with plenty of size, full of quality; a show sow in any country. The other sow, Woodstock Lady Frost 2nd, sire Dalmeny Long Sam (imp.), bred by the Earl of Roseberry, dam by Ruddington Ensign, bred by Philo L. Mills, Ruddington Hall, England. This sow, like the others, is well worthy of her breeding. This importation will help keep the herd up to the high standard of excellence that it has maintained for many years.

"In the same car with these pigs came a trio of Barred P. Rock cockerels from one of the best eastern yards. Those requiring eggs for hatching will do well to place their orders with us. We only keep the one breed, so our birds have unlimited run, which goes a long way to insure a good hatch."

NOTHING BUT GOOD RESULTS.

After using Gombault's Caustic Balsam for more than twenty years, I believe it to be the best blister I have tried. I have used it in hundreds of cases with nothing but good results. It is perfectly safe for inexperienced person to use. This is the largest breeding establishment of trotting-bred horses in the world, and you may know we have occasion to use your blister quite often. I have recommended your blister to many horsemen.
