goods. Complaint is still heard of backward remittances, and we suppose such must continue to be the case until grain has fairly begun to move. Leather dealers report the business of September as being behind the average. A large quantity has changed hands but at very close figures, and neither the tanner nor dealer is said to have much for their trouble in handling. The persons who are, it is alleged, getting the greatest amount of benefit from these close prices are the manufacturers, small shoemakers, and harness makers. October opens very quiet and with prospects of not much activity.

FLOUR.—The market has again reverted to the quiet character which so long prevailed, and but little enquiry was heard during the week. Prices are unchanged all along the line. Bran has not moved to any extent, and \$10 to 10.50 is still the ruling figure.

DRY GOODS.—Although hardly up to expectations, trade so far has not been bad, and some houses can report quite a respectable number of orders booked and a cheerful feeling on the part of customers. Payments, too, while not as good as could be desired, show signs of improvement. Dress goods and mantlings are in active request, and there is a brisk trade in rubber dolmans of the better grade. All staple lines are in moderate request and prices continue firm. Travellers on the road are not disposed to complain much.

MAITLAND & RIXON, OWEN SOUND.

NEWLANDS & CO., MANUFACTURERS, GALT, ONT.

GRAIN.—Values of old wheat are much about the same as last week. There is only the local trade with millers. Receipts of new—the price of which is 10 cents less than old—have been small in this city, but outside mills, it is said, have taken quite a quantity. Street quotations for new barley, which is being marketed at about 2,000 to 3,000 bushels per day, range from 40 to 55c. for No. 3 to No. 1. Old oats are worth about 29 to 30c., and new have sold at outside points at 22 to 23c. Peas continue nominal at 55 to 57c., as do also corn and rye at 48 to 50c. and 56 to 57c. respectively.

GROCERIES.—No important feature has developed since our last review. Sugars are not so firm, and whites are down ½c., and Redpath's Paris lumps are now quoted at 9 to 9½c. and extra granulated at 8½ to 8¾c. Canadian refined may be obtained at slightly better figures, say 6½ to 7½c. Advices from Greece report values of currants there much firmer than at the opening of the season. Trading in teas has been fairly brisk, principally in Japans and blacks. Messrs. Lewenz and Hauser Bros., London, tea circular of Sept. 20 says: "In sympathy

THE BEST.

THE CHEAPEST.

STRATFORD, June 27th, 1889.

(COPY.)

MESSRS. E. & C. GURNEY CO., TORONTO.

Gentlemen,—

Yours of the 25th inst. just received, and have much pleasure in stating that the No. 25 "Gurney Hot Water Boiler" placed in my house by Messrs. E. Dunsmore & Son, has proved, after a severe test, most satisfactory, both as regards heating and economy of fuel. I may say that I could not heat my house in any other way without using a great deal more fuel.

I remain, yours truly,

(Sgd.) JOHNSTON ABRAHAM.
