HOLV CROSS COLLEGE.

New York Sun. Aug. 2. Deserving of particular attention among the Catholic institutions for the higher edu-cation is the College of the Holy Cross at Worcester, which was incorporated in 1855 by the Massachusetts Legislature, and has from the start been under the charge of the Society of Jesus. A review of the catalogue for the academical year 1894-95 will make it evident that this establishment is in a flourishing condition, and that its Bachelor of Arts degree is less easily acquired than is the diploma of the same name at some older and richer universities. An extensive capacity for usefalness is attested by the fact that the scaff of professors and instruct ors comprises over thirty members, while the number of undergraduates and resideut graduates is two hundred and fifty. This institution consists of a college proper and of a preparatory school, which, as re-gards the lines of work pursued, may be compared with a German gymnasium. Alto-gether, the course of study prescribed for the attainment of an A. B. degree covers seven in the college. The last year is devoted ex-clusively to the natural sciences and rational philosophy. In no year is any of the studies elective. The study of French is obliga ceive a very strong support. Mr. Blake expects to leave for Toronto New York Sun, Aug. 2. in a few days, and after a brief rest will start for New Zealand, where he has been retained to arbitrate in a case of the Government of the Colony and the Midland Railway. He will return in time for the opening session of the Parliament early next year. A Protestant Minister's Opinion of

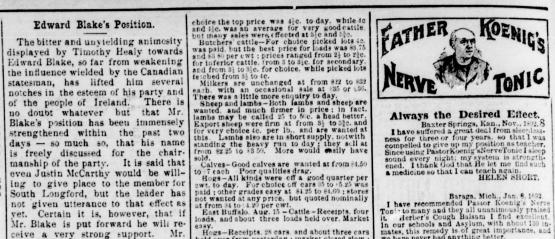

recently, Rev. Doctor Alexander Mc Kenzie, a Congregational minister, did not hesitate in letting his hearers know his opinion of Catholics. He aid : "We have crawled into prosperity over the prostrate form of the Puritan and ought not to complain b) preparatory school and the remaining four lin the college. The last year is devoted ex-clusively to the natural sciences and rational philosophy. In no year is any of the studies elective. The study of French is obliga tory for three years; that of Greek, Latin, and mathematics for six years. It is well to note the scope and character of the work performed in these three departments. No young man can graduate from Holy Cross without a thorough mathematical edu-cation; that is to say, without having mastered arithmetic, algebra, plane and solid geometry, plane and spherical trizo-nometry, surveying, navigation, analytical geometry, and the differential and integral calculus. In Latin he must be conversant with the grammar, including prosody, and be able to write Latin prose. He must have read Nepos's "Lives, the "Epitome His torian Sacra," Philedrus, Cæsar's, "Gallic War," Ovid's "Metamorphoses," selections from Cicero's letters and narratives, the "De Senectute" and "De Amicitia," and a large number of Cicero's oratins : the Ecloques, Georgies, and "Aenicita," and a large number of Cicero's oratins : the Ecloques, Georgies, and "Aenicita," and a large number of Cicero's oratins : the Ecloques, Georgies, and "De Arte Poetica "of Hor-ace: Sallust, the "Germania" and "Agricola" of Tacitas, and finally Juvenal and Persius. Scarcely less noteworthy are the require ments in Greek. A candidate for the A. B. deuree must not only display a minute ac-quaintace with Greek grammar and the ability to write Attic prose, buthe must have read the selections known as "Graesa Minora," certain dialogues of Luctao, the "Anabasis" and "Cyroparelia" of Nenophon, Homeris " Hiad." the "Olynthines," "Phi-lippics," und "Pro Corona" of Demosthe nes, the "Antigone" of Sophoeles, and the ora-tions of St. John C I am a Puritan through and through But when I think of the unceasing, self-sacrificing, persistent, steady work of the Roman Catholic Church, I am almost tempted to say that they de-serve their success. They build brick churches ; you are too mean to even build wooden chapels to worship in.

HOW SHE WAS RESCUED FROM A LIFE OF TORTURE.

OF TORTURE. Perhaps no disease with which a person can be afflicted is so terrible and blighting in its nature as a nervous disorder, which gradually saps the strength of its victim and haunts him or her day and night. This was the melancholy prospect which confronted the young daughter of Mr. Sollers, the druggist, corner of sixth and L streets, in this city, and the gratitude of her parents when a complete and lasting cure was brought about may be imagined. Learning of the case—for it is one which has created a great deal of interest throughout the country—a reporter sought Mr. Sollers to get the full particulars, in the belier that much good could be done other sufferers by the publication of the facts of the case. The reporter found Mr. Sollers in his drug store busily engaged. He at once narrated priefly the particulars of the cure which had been effected in the case of his daughter. The facts which Mr. Sollers voluntarily and cheerfully stated, are set forth in the follow ing: Three years ago our little cirl, then three

cheerfully stated, are set forth in the follow-ing: Three years ago our little girl, then three years old, was taken with attacks which we have since found to be epilesy, but which for two years, notwithstanding we consulted from twelve to fitteen physicians of this city, Philadelphia and Baltimore, we did not recognize. She was treated for everything imaginable, but without relief; finally she got so bad that the physicians said she would soon die or become insane. The only thing that suppressed the attacks during this time was chloroform, under the influence of which she had to be kept for weeks at a time, or else she would bite her tongne or cheek, or crack her teeth. We sent her to Philadelphia and Baltimore to be examined by specialists, but she was re-turned without their, being able to locate the Notice to Manufacincers of and Deal-

Gentlemen—For the fourth time it is my pleasure to welcome you to the annual convention of the Grand Branch of Cauada. It is the more pleasing because it was in this the Metropole city of our Dominion that I first became acquainted with the grand and emobling principles of the Emerald society. My greeting to you on this occasion is one full of hope for the future welfare of the order. Viewing as I do the past, in which so much good has been done for the uplifting of our members and the people of the Catholic faith, I cannot help but feel that success in the fature is ours if the members but alhere to the principles laid down in the constitution by the founder of the Emeral Mensional that the root be unmindful of the fact that in assembling to-day we do henor to ourselves and to the members point to do and whose memory is endeared to every Catholic heart, and to whose every not we can as Catholics point who did so much for our Faith, and whose memory is endeared to every Catholic heart, and to whose every not we can as Catholics point with pride, mean eight of the Dominion, animated, I trust, by one object—the advancement of the best in terest of Emeraldism. My duty on this and every occasion is to call your attention, in as brief a manner as possible, to the work accomplished during this year, and to put before you enterted upon me in the past in pasting me at the head of our order. MRS. THOMAS MARSHALL, DETROIT. The many friends of Mrs. Katherine D. Marshall, beloved wife of Thomas Marshall, formerly of this city, were greatly shocked to learn of her demise, which occurred at ther residence, 80 Labrosse street, Detroit, Mich., on the 6th inst; for, though Mrs. Mar-shal had been in failing health for some time, her death was wholly unexpected. Death, however, did not find her unprepared. She passed away fortified by the rites of the Church of which she was ever a faithful member. The remains were brought to London, Ont., for interment, and placed in St. Pater's cemetery, beside those of her son. They were escorted by a large number of the friends of the deceased. Marshall was a lady of great refine-maraces. Always cheerful, generous and charitable, and ever mindful of the contorts to those around her, she contributed largely to the hap inness of her friends, by whom she will be greatly missed.
