

"Galt" Shingles

THIS IS THE SHEET METAL AGE.

To have been first shows antiquity—to have become first proves merit. The new "Galt" Shingle owes its enormous popularity and sales—not to the age, but to the brains of its inventors and makers.

We use only the Best British Galvanized Steel Plates—there are none better. Our bold Gothic Tile pattern is very handsome in appearance. "Galt" Shingles are accurately made, which insures quick and easy application. Covered nailing flanges at both top and sides insures strength and rigidity.

Our claims for the "Galt" Shingle are firmly based on the superiority of its constructional features here illustrated.

We originated the Gale-proof, Closed-end side lock. We perfected the continuous interlocking, over-lapping, easy-fitting and invisible top lock.

Pronounced by roofing experts to be the most perfect shingle ever made.

They cost no more than the others.

We have a lot more to tell you about them in Catalog "B-3"—ask for it.
