WRITE TODAY FOR A COPY OF THE NEW "BT" CATALOGUE OF STEEL STALLS & STANCHIONS

If you are building a new barn of remodel-ling your stable WHY NOT PUT BT STAN-CHIONS AND STEEL STALLS IN IT? They will make it brighter and neater, are stronger, more durable and cost less than any other kind of stabling. With them your

stables and why it pays to use HT Stanchions

BEATTY BROS., Brandon, Man. FERGUS, Ont. re Litter Carriers, Hay Carriers, Etc.

Granite Harvester

For Reapers, Threshers, Plows, Harrows

Insures better work from the new machine and lengthens the life of the old. Wherever bearings are loose or boxes worn it takes up the play and acts like a cushion.

Changes of weather do not affect it.

Gasolene and Kerosene Engines

Standard Gas Engine Oil

is the only oil you need. It provides per-fect lubrication under high temperatures without appreciable carbon deposits on rings or cylinders, and is equally good for the ex-ternal bearings.

Steam Traction Engines and Steam Plants

Capitol Cylinder Oil

delivers more power, and makes the engine run better and longer with less wear and tear, because its friction-reducing properties are exactly fitted to the requirements of steam traction engines and steam plants.

Mica Axle Grease

Traction Engines, Wagons, Etc.

makes the wheel as nearly frictionless as possible and reduces the wear on axle and box. It ends axle troubles, saves energy in the horse, and when used on axles of traction engines economizes fuel and power.
