MODEL 8

“WAUGH” SHARPENER

Model 8 “Waugh” Sharpener at the Granby Mine, Anyox, B.C.

MEANS

Rapid Sharpening: The highest efficiency in sharpening and forging bits and shanks can be obtained only with this machine.

Increased Production: Rapid sharpening correctly done makes for plenty of properly sharpened steels which speeds up the rock drilling.

Low Upkeep for Drills: Properly sharpened bits and correctly formed shanks reduce the cost of drill repairs, as there is less strain on the rotation parts and hammer.

Power Saved: Uses much less air than other sharpeners and operates effectively on lower pressures than are required to run machines of similar capacity.

“It’s a Waugh” *That’s all you need to know about a Stoper*
