Earl Bolton Struck With a Board at Piggotts' Planing Mill-Will Injure Sight

One of the most painful accidents that has been recorded in this city for some time is the one which ocfor some time is the one which occurred yesterday afternoon at Piggott's mill, when Earl Bolton, son
of Ed. Bolton, St. George street, was
struck in the eye with a board.

The young lad was standing on a
board and in reaching over for another board he accidentally stepped
on the end of a long stick which
flew up, the end of it striking him
in the eye. Three large splinters
were embedded in the ball of the
eye, having penetrated through the
outside skin. He was immediately
taken to a physician, and after a
short time of careful and clever work
the splinters were removed. The
sight of the eye will not be as good
as usual for several weeks, but it
is expected that it will, in time,
retain its natural state.

The self-made man is the one who has taken advantage of his self-made opportunities.

A DAY OF SPORTS

Popular Event Will be Given by The Boys of The Collegiate Institute

At a meeting of the boys of the Collegiste Institute, held yesterday, it was decided to hold a straight day of athletic sports on Tecumseh Park, on the 1th of October. A holiday will be declared for the whole school on that day, and it is expected that the program will be one of the most successful ever given by the boys of this institution.

Although the program is being prepared by a committee of the boys of the school, the man behind the movement is Mr. Edwards, the Commercial Master of the Collegiate, who is himself a thorough athlete and an excellent master of ceremonies in events of this kind.

ies in events of this kind.

Those who will enter into the various events, and these will be many, are already preserved.

are already preparing for the day, running, jumping, etc.

Some years ago days of sport, such as the one in the course of preparation, were quite popular in this school, and they were not only inschool, and they were not only interesting, but also beneficial, both to private and school life. Since Mr. Edwards was appointed to the position of Commercial Master, he has been working up some of the old-time enthusiasm, and he has succeeded remarkably well. The boys are taking hold of the new proposition, and, judging from the energy they are putting into it, they will make the day go with a flourish.
