Christmas Carol

"What means this glory round our feet,"
The Magi mused, "more bright than morn?"
And voices chanted clear and sweet,
"Today the Prince of Peace is born!"
"What means that star," the Shepherd said,
"That brightens through the rocky glen?"
And angels answering overhead
Sang, "Peace on earth, good-will to men!"
'Tis eighteen hundred years and more
Since those sweet 'cracles were dumb;
We wait for Him, like them of yore;
Alas, He seems so slow to come!
But it was said, in words of gold,
No time or sorrow e'er shall dim,
That little children might be bold
In perfect trust to come to Him.
All round about our feet shall shine
A light like that the wise men saw.
If we our loving wills incline
To that sweet Life which is the Law.
So, shall we learn to understand
The simple faith of shepherds then,
And, clasping kindly hand in hand,
Sing, "Peace on earth, good-will to men!"
But they who do their souls no wrong,
But keep at eve the faith of morn,
Shall daily hear the angel-song,
"Today the Prince of Peace is born!"
—James Russell Lowell.

"But I Am Not Nervous, Doctor, See How Strong I Am"

"YES, you are strong, all right, and I find after a careful examination that there is no indication of organic disease."

"Then what does seem to be the trouble?"

"It is your nerves, the internal nerves which control the action of the vital organs such as the heart, the stomach, the liver, the kidneys, etc. This is called the sympathetic nervous system. It is not at all uncommon for strong, healthy-looking people to suffer from this form of nervous trouble."

"I never thought I was nervous."

"How do you act in the dentist's chair?"

"Well, I generally keel over in a faint."

"That is just it. Your sympathetic nervous system is affected by the thought that you are going to be hurt. Your digestive troubles are due to the run-down condition of your nerves."

"I never thought of that."

"No, and not many people realize the all-important part played by the nerves in the digestion of the food and the functioning of the vital organs. The flow of the digestive fluids in the stomach, the filtering of bile from the blood by the liver,

the purifying of the blood by the kidneys—all these functions and many more are controlled by the sympathetic nervous system. Consequently when the nervous energy runs low all these processes are slowed up and you suffer accordingly."

"While examination shows that there is no organic disease, the action of these organs is weak because of the exhausted condition of the nerves. You need a good nerve tonic."

"What about Dr. Chase's Nerve Food?"

"There is nothing better that I know of. I find evidence everywhere I go of the exceptional restorative power of this popular treatment. But do not expect to get well in a day. It takes time to bring back strength and vigor to an exhausted nervous system."

"How long will I need to use the Nerve Food?"

"That is hard to say. Perhaps two or three months. But you will soon feel the benefit of this treatment and then keep right on using it until you are fully restored."
