TRUTH BETTER THAN FICTION.

Thos. Alexander Told Fib and Got Six Months.

J. J. Smith Will Likely Go to California.

Case of Boys Who Threw at Train Settled.

Thomas Alexander, a Scotchman, got a good taste of Canadian justice this morning, when he was sent down for begging, for a term of six months. He was arrested by Constable W. McLean for holding up people on the street for money, last night. Several witnesses swore to the fact. Alexander, when sworn, stated that he wished to deny all the accusations made against him. He denied, when asked by the Chief, that he had ever been up before for begging. Sergt. Finch was on the spot, however, and when Alexander made this statement he asked to be sworn. He swore that he was in court about a year ago when a conviction on a similar charge was registered against the prisoner.

"It would have paid you better to tell the truth," said His Worship, as he committed the prisoner to Central Prison. John Warren, 147 Mary street, was accused of trespassing on the property of T. J. Holland. He pleaded guilty and asked for a chance. As he appeared to be verging on the D. T. A., he was remanded for three days and will probably be allowed to go on Tuesday, as he wants to go away to where no bones are sold. The case of John J. Smith, charged with theft, was on the list this morning. Through J. L. Counsel, he pleaded not guilty and elected to be tried by the Magistrate. It was shown that the charge of stealing the coat was brought as a means to get the young man to keep away from his mother's home. The Magistrate did not pronounce him guilty, but remanded him till Tuesday, to see if a satisfactory arrangement can be made. It is likely the defendant will go to California.

Martha Powell, Florence street, was allowed to go to the Sunrise Court, after sobering up in the cells. The following were fined \$2 each: Ed. Pettit, Park and Mulberry; Ben Campbell, Flamboro' Hotel; and Ed. Richardson, no address. The three boys who were caught throwing stones at the T. & E. R. trains at Vinecroft last week were to have come up to-day, but the case was settled out of court, the parties getting together and coming to a satisfactory arrangement.

Allan Nicholson, contractor on the B. & H., was sued by Thomas Stevens for \$290 wages. The case was dismissed, as it was shown the defendant had accepted a cheque for the work he had actually done and had made no stipulation when accepting it as to money for his month's notice. S. D. Biggar appeared for the complainant and William Bell for the defendant.

TO HOLD BANQUET

In Connection With Methodist Missionary Campaign.

The first meeting of the Hamilton Methodist Ministers' Association for the season of 1907-8 was held yesterday afternoon in the board room of Centenary Church. Besides the Ministers a number of the prominent laymen were present. The meeting was largely devoted to a discussion of the programme for the missionary campaign to be held in January, extending over the last three Sundays of the month. It was decided to hold a Methodist missionary banquet some time during the first week of the campaign.

Y. M. C. A. NOTES.

The opening meeting of the Ladies' Auxiliary for this season will be held on Monday next at 3.30 o'clock. All old members of the Auxiliary are expected to be present, and any ladies who would like to help with the good work the Auxiliary is engaged in will be cordially welcomed at this meeting.

Young Men's Bible class at 3 o'clock, and the men's meeting at 4.15, will be in charge of J. A. Kneale. All men cordially invited. The Business Men's class will open on Monday next at 5 o'clock. Old members and new ones will be cordially welcomed. Junior rally at 4.15. Every boy in the city over twelve years of age is invited. Presentation of certificates to the boys who passed the recent International Bible examinations. Mr. E. M. Robinson, International Boys' Secretary, will address the gathering. He is the boys' friend, and every boy in Hamilton should make an effort to hear him. Make it a point to be present.

Y. M. C. A. MEMBERSHIP.

For students, clerks, mechanics, business and professional men, is now open, and offers advantages unexcelled in the country. The fee is merely nominal, in compensation with the privileges offered. Prospective members should join at once and get in with the opening classes. See special physical department announcement. Call at the office or telephone 1,575.

Greatest Sale Hamilton Has Ever Known.

Just a few hours more to purchase goods at odd sale prices. No goods will be delivered to-night if purchased after 8 o'clock, but they will go out on the first delivery in the morning. See last night's papers for the big list of bargains. Men's top shirts 19, 49, 99c; men's undershirts 19, 49, 99c; men's and women's umbrellas, 49, 99c; ladies' vests and drawers 19, 49c; curtain ends 19c; floor oilcloth 19c; ladies' felt shoes and ready-to-wear hats 49 and 99c; men's and women's handkerchiefs four for 19c; lace 19c; plain and fancy ribbons 19c; nickel alarm clocks 49c; automobile veils 19c. All the above mentioned articles at half and less than half price. Put in your supply of groceries for a month. You make a big saving.

Over 70 per cent. of the natives of India till the land; hence the population is scattered, and their power of co-operation is greatly lessened. The output of all the vineyards of the world is estimated to be 3,554,416,000 gallons.

DISGRACE TO ANY LINEMAN.

Wiring of Dundas Fire Alarm System So Characterised.

Inquest on Death of Samuel Sutton Resumed.

And Dundas Manager of Cataract Company Examined.

Dundas, Oct. 5.—The enquiry into the cause of the death of Samuel Sutton was resumed at the Town Hall last evening before Coroner Dr. McGregor.

Crown Attorney Washington was not present, but was represented by Town Solicitor Gwyn. Mr. Ross, of Hamilton, was present in the interest of the Cataract Power Co., and W. E. S. Knowles in the interests of the deceased's family. Alex. Farquharson, local manager for the Cataract Power Co., was the only witness, his evidence in chief and cross-examinations lasting over two hours. On reaching the scene of the accident, he said, he found the company's wire on the pavement. The current had been turned off before he got there. The wire carried 2,000 volts, feeding two street lighting transformers. He saw the end of a fire alarm wire hanging in front of Wilson's house just above reaching distance. Climbing a pole to the south, his head came in contact with another wire, which caused it to slip, so he tied the end around the pole to keep it from falling. While doing so he heard a piece of wire fall to the ground. He then got a lantern and found the piece. Matters were left in this shape, by order of Mayor Moss, until daylight. He made arrangements to meet Chief Twiss at 6 o'clock next morning. In the morning Chief Twiss ordered Frank Nelson to climb the pole. Witness went across the street to notify Van Miere, an experienced lineman in the company's employ, to be on hand. While doing this Chief Twiss, he said, attempted to destroy all evidence at the pole by ordering Nelson to remove all fire alarm wires from the company's pole. Witness ordered this not to be done, and a shouting match between the chief and witness resulted. The result was that Nelson left things as they were. The fire alarm wire was thrown off the pole and the stretch removed by Nelson under orders from Fire Chief Knowles. The power was put on again at 7 o'clock. The fallen stretch was put up between 12 and 1 a.m. Witness could not tell the life of an insulated wire. It would be, barring accidents, as good at the end of ten years as when first put up. The broken wire would safely carry 10,000 volts. He considered the company's wire that broke was in good condition. Asked as to his theory of the cause of wire breaking, witness stated that a gale had loosened the knob of the fire alarm wire from the pole. This wire had a stretch of 200 feet from Main to Halt street. The rain on Friday had soaked the insulation of the company's wire, and the fire alarm wire crossing the company's wire under these conditions had formed a short circuit between the company's wire and caused the breakage. The fire wires are four or five feet above the Cataract's wires. He considered it extremely dangerous to have the fire wires above the electric wires.

The broken wire was installed about five years ago, after the Power Company, had taken over the Dundas Electric Co. He had not inspected the broke wire during the past six months. The voltage varies by ten or fifteen volts throughout the town, the highest carried being 2,200. The wire broke was No. 8. The insulation was the regular standard cotton insulation.

Mr. Knowles here requested the coroner to have the witness ascertain the highest amperage on any wire in the town, which the coroner subsequently did, the result to be given at an adjourned meeting of the jury. The amperage of the wire that caused the death was also ordered to be given.

Continuing, the witness said that the insulation of wires was most affected by moisture. The insulation used was the standard for all wires. An insulation could be moisture, but its use was not practicable, and he did not know how much more it cost than the insulation used. The company has at present some line wires in dangerous places in town. The line wire that fell in Miller's Lane the night following, he thought, was broken by the motion of a tree. The insulation on the broken wire, and others near it, was destroyed at the burning of Durant's barn, but how long ago this was witness could not say.

Pressed for an answer as to the wiring of the Dundas fire alarm system, witness said it was a disgrace to any lineman.

At the conclusion of the evidence, 10.30, as it was necessary to have another sitting, the proceedings adjourned, to be resumed at 8 o'clock on Tuesday, at the same place.

Garment Workers' Union, No. 30, held its annual ball and supper in the audience room of the Town Hall last evening. It was a successful and enjoyable affair. About sixty couples were present. Tillman's orchestra furnished the music, and Miss Nelson was caterer for the occasion.

The annual school sports were held in the park yesterday, and were unusually successful. The winners were:

Boys under 7—T. Bertram, Edgar Jones, John Cherry.

Girls under 7—Connie Leonard, Bertha Boyle, Celia Fisher.

Boys under 9—Stanley Tyson, W. Griffin, Nelson Tyson.

Boys under 12—Daniel Layden, M. Lawson, J. Nieman.

Boys under 14—Roy Tennant, Roy Nawn, C. Lawson.

Boys 14 mile—Robt. Bonham, Gordon Suter, Leo Sullivan.

Girls under 10—W. Reid, Dell Thompson, B. Hannaford.

Girls under 12—Ella Lyons, Clara Mallet, Lena Dymont.

Girls under 14—Alberta Lyons, Naomi McMurray, Jean McPhedran.

Open race, girls—Jennie Doidge, A. Lyons, Clara Gwyn.

100 yards—E. McCordel, F. Pirie.

Brood jump—E. McCordel, 16 feet 7 inches; Roy Watson, C. Rowley.

Half mile—F. Pirie, E. McCordel.

Relay race—J. Suter, W. Lawson, R. Knowles, W. Cowper.

Putting 17 lb. shot—Reggie Knowles, F. Pirie.

Hop, step, boys under 14—Roy Nawn, P. Duckworth, R. Bonham.

Pole vault—F. Pirie, E. McCordel, Ed. Laing.

High jump—Ed. McCordel, 4 feet 7 inches; Frazier Pirie, Shearer.

Hop, step, boys—Roy Watson, 35 feet 9 inches; Shearer, W. Lawson.

Hurdle—E. McCordel, W. Lawson, Jack Suter.

Sack race—N. Reid, Joe Semard, F. Nichol.

Basket ball—Won by Kathleen Suter, Braut, M. McMillan, W. George, G. Leonard. Ed. McCordel won the all-round championship.

KEEN INTEREST.

In Montreal in the Game With Argos To-Day.

Montreal, Oct. 4.—The keenest interest is being shown in football circles in this afternoon's match between the Argos and Montrealers, and arrangements have been made to accommodate the record crowd which is expected to turn out to witness the match. It is not expected that Captain Jimmie Craig will play. This being the case, the Montreal's back division will have to be made over. The sentiment of the Executive favors "Buzz" Baillie for the position. This would make the back division Stinson, full; Baillie, centre half; Russell, left half; Small, right half; and Hammy Gordon, quarter.

The scrimmage will contain Percival Roberts and Bennie Lesser for sure, and the third man will be either Louie McAllen or Feggy Lorne, who was out of the game last season.

There are nineteen American colleges with an enrollment of more than 3,000 students each.

CLEVER ARTIST.

Young Italian's Work at N. Y. Art Students League.

New York, Oct. 5.—Antonio Barone, an Italian youth of 19 years, is now a student at the Art Students' League, and is turning out work in portraiture which is gaining him the commendation of such masters as Kenyon Cox and Wm. McHugh. Yet about a year ago Barone was soldering tin cans in a factory at Leroy, N. Y., and his chances of being a painter were remote. Miss Ida C. Leroy, who had studied art in this city, heard from some friends that an Italian hand in the factory, who could hardly speak English was making such good portraits of his fellow workmen that they were the talk of the place. She sent for him, looked at his sketches, and made arrangements with his employees by which he could have more time for drawing. Last autumn he entered the Art Students' League and by the end of the year he had won a scholarship.

OBITUARY

The funeral of Mrs. Mary Kitchen took place this afternoon at 3.30, from her late residence, 186 Hugheson street north, and was very largely attended. Rev. F. W. Hollinrake conducted the services and the pall-bearers were W. Booth, W. Waugh, A. Bartlett, M. Purlong, F. Bowerman and T. Bennett. The floral tributes were beautiful and numerous.

The funeral of John Webb took place this afternoon from his late residence, Garth street above Aberdeen, and was very largely attended. The pall-bearers were personal friends of the deceased. Rev. Mr. McLoughlin conducted the services.

Money in Toronto.

Toronto Saturday Night: The local money market is not favorable at this time to bull activity in the stock market, neither is it favorable to new enterprises demanding large banking accommodation. Nevertheless, the general financial situation is stronger than it was three months ago. The conservatism on the part of lenders during the early summer months has, as it were, saved the situation, and conditions have improved in consequence. The squeezing out of water in the capitalization of various concerns and the liquidation of trade accounts which were tainted with suspicion, have been helpful to the country at large, and strengthened the intrinsic worth of investment securities. The tendency toward a trade reaction is felt in some quarters, and there is little doubt but that it will extend further. However, there are no signs of it in the general movement. The foreign trade of Canada has increased the past few months, and the domestic trade, which is reflected in the traffic movement of our railways, shows no signs of decadence.

Vanilla comes from a genus of climbing orchid which grows plentifully in the tropics.

The difficulties of sending wireless messages during the hours of daylight have been overcome to a great extent.
