LIVE STOO

LIVE STOCK.

The railways reported 95 car loads of live stock for Wednesday and Thursday, consisting of 1518 cattle, 1550 hogs, 894 sheep and lambs and 103 calves.

At the latter end of the week the number of good cattle was smaller than at the commencement, with few finished steers and heifers in either the butchers or export classes.

Many of the local butchers complain that the cattle coming on the market are not properly grain fed, as they do not kill out satisfactorily; cattle that should dress 54 to 54 lbs. per cwt. do not go more than 50 and 51 lbs. This fact more than any other is what causes the butchers to object to prices asked by butchers to object to prices asked by some of the drovers. The butchers, many of them, say that the drovers are paying too high prices for cattle that are not finished.

Exporters—Not many shipping cattle were offered, and certainly none of choice quality. The top price quoted was \$5.35 and down to \$5.10. But there were not enough exporters to make a market. Bulls were quoted about the same at \$4 to \$4.25 for the bulk, with a few of better quality as high as \$4.40. CANADIAN CATTLE IN BRITAIN.
London.—In the House of Lords, during a discussion on the state of Ireland, Lord Denman remarked that the cattle trade of Ireland did not rest on a secure basis, as it was possible, if the tariff reform government came into power, they would succumb to the pressure to remove the embargo.
The Evening Despatch of Edinburgh says nobody knows better than the Libercal candidate in Forfarshire that the present government has no desire or intention of sanctioning the importation of figure. This showing would compare line with exception of steel rails is being given very serious consideration. Iron Trade Review says reports of price cutting has been very much exaggreated.

COBALT MINING STOCKS

There were more buying than selling orders in the Toronto mining market yesterday, and Cobalt stocks were considerably firmer in consequence. The announcement of a 15 per cent. dividend on Right of Way had a stimulating effect, and the stock sold as high as \$3.50 in the afternoon, with few offerings. Temiskaming was a very active stock, the price mounting to 1.60 3-8 to 1.66, sixty days. There was also considerable trading in Beaver, which gained a point, and Queen also recovered to some extent, touching 63. Prices generally were well maintained, and the situation was described as simply a waiting market.
