### TEA TABLE GOSSIP. HOT AIR CLUB HAD RE-UNION

### And Made a Presentation to An Honored Member.

Following the recent rise in temperature the members of the Hot Air Club held their annual reunion yesterday. Twenty-three delegates, all vouched for, embarked at the bay front for the pis-catorial tournament, which was held

near Oaklands. After the various kinds of bait had been uncorked, all lines were cast overboard, and after a number of suspicious nibbles Captain James Som-erville, of the 91st Highlanders and treasurer of the club, finessed the fin-niest kind of a perch. After this lucky cast he was rated even on the next unpire that one fish had been a re-peater, and if it had not been for the advice of Charles E. Burkholder, given would have been credited with winning the lightweight championship. — Thing the afternoon a wireless was sent to the Gun Club, conveying frater-and greetings. Dr. Roberts reported this morning that he found little to com-plain of, and the feeling of the entire board was of a very complimentary nature, as the conditions all around have been greatly improved. He also said he was asked by a doctor to see a baby that a short time ago was expected to die. The child was fed on clean milk and is now a very healthy-looking speci-men-one would never suspect it had ever been ill. Dr. Roberts said he hoped the milk dealers of the city would not look upon the Clean Milk Commission as running in opposition to them, as the only aim was to secure absolutely clean milk. A great many farmers are bringing excel-lent milk to the city, but not all milk delivered could be guaranteed, and the commission is making an attempt to furnish safe mlk for infants.

City Engineer an allum announced this morning that the sand dredge had finished its work in the filtering basin at the Beach, and the workmen are now taking out the old roadway. About a quarter of this job is already completed, and ten more working days will end the whole thing.

A meeting of the special committee or the Garth street bridge will be called at an early date to consider a draft or der on the construction. Yesterday's school tax receipts am-ounted to \$16,820. Mr. Keer is feeling somewhat anxious in the matter, as the taxes are coming in very slowly. The office should, to make things come out right, collect \$50,000 a day until Mon-day night.

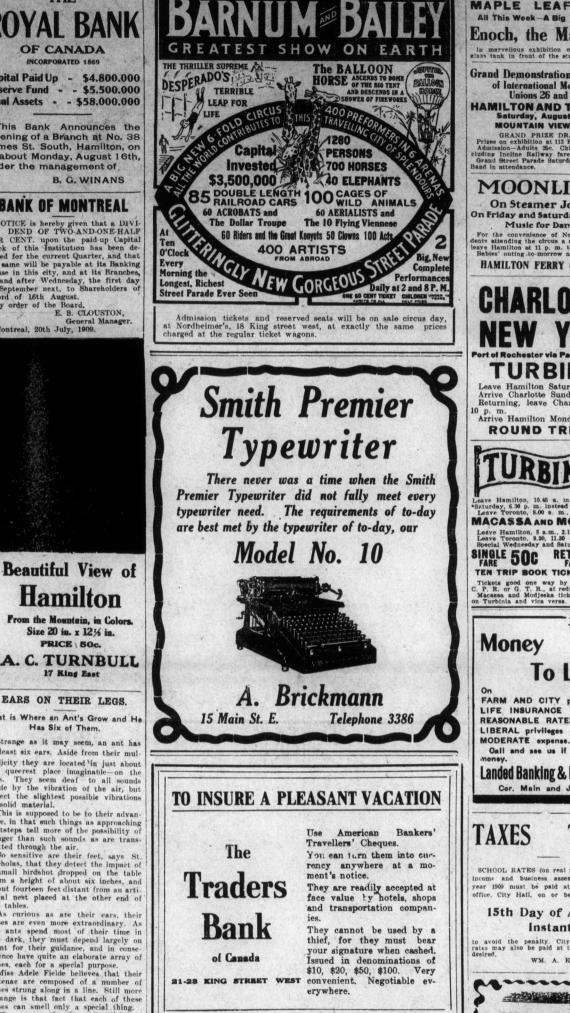

Mr. Kerr is in receipt of a letter from England, written by Richard Wild, ask-ing for his father, Richard Wild, who left the old land in 1882 and settled in St. Catharines, from which place he moved to Hamilton.
