Summer Pruning Apple Trees

It is a pretty well established fact that apple trees—and we would add pear trees—pruned from the middle of July to the middle of August sustain the operation with much more advantage than if pruned at any other period of the year...

Crops which Enrich the Soil

One of the great needs of American agriculture is the introduction and extensive cultivation of such plants as enrich rather than impoverish the soil. So far as ascertained, the leguminous plants—such as peas, beans, and clover—belong to this class...

The Garden of Gethsemane

A Summer Homily

"SUMMER and winter; springtime and harvest," so they come, and so they go,—summer with its leafy crown and flowery adornment, winter with its heavy load and frozen heart,—spring with promise, and autumn with fulfillment. Power of Kindness

Kindness is known to be a specific for many forms of disease, and kind nursing for many more. Christ's whole ministry was one of personal kindness. Charity is the great love of Christianity, by it the messengers of the Gospel can open the eyes of pagan blindness...

Feared Preaching

Father Moody was an eccentric man. He had in his congregation a Colonel Ingraham, a wealthy farmer who had kept back the large stock of grain from the market, in hope of raising the price. This man had a large holding for carrying on the sheep, and a public attack upon the transgressor. One Sabbath he read from his text, "He that withholdeth the corn, the people shall curse him; but blessings shall be upon the head of him that selleth it." Prov. xii. 10. Colonel Ingraham could not but know to whom the reference was made...
