MINARD'S
"KING OF PAIN"
LINIMENT

Extract from a letter of a Canadian soldier in France.

To MRS. R. D. BAMBRICK :
The Rectory, Yarmouth, N.S.

Dear Mother :—

I am keeping well, have good food and well protected from the weather, but have some difficulty keeping uninvited guests from visiting me.

Have you any patriotic druggists that would give something for a gift overseas—if so do you know something that is good for everything? I do—Old MINARD'S Liniment.

Your affectionate son,
ROB.

Manufactured by the
Minard's Liniment Co. Ltd.
Yarmouth, N.S.

Here and There

Buffalo in Wainwright reserve increase at the rate of about 2,000 each year.

The output of coal from Canadian mines during January, 1923, amounted to 1,743,600 tons.

The total wheat production of Canada in 1922 was 399,786,400 bushels of which Saskatchewan produced 250,167,600 bushels.

The Eskimos give the doctor his fee as soon as he calls. If the patient recovers, he keeps it and if not it is returned.

Heads of large implement and machinery firms in Edmonton and vicinity state that for every acre of corn that was sown in Alberta last year ten will be sown this year.

1923 will be the greatest prospecting year known so far in Northern Ontario. The largest rush of prospectors is in the district extending from Swastika for a hundred miles east into the Province of Quebec.

Grain men and others in Calgary already forecast the probable yield of wheat in Alberta this year at something in the neighborhood of 100,000,000 bushels. This estimate is based on the 63,000,000 bushel crop of last year.

The total wheat production in Canada has grown from 16,720,000 bushels in 1901 to over 399,000,000 in 1922. The number of elevators in 1905 was 525 with capacity for 18,520,362 bushels. To-day the capacity of 3,324 elevators in Canada is 231,033,420 bushels.

The Canadian Pacific Railway have further reduced the freight rate on horses from prairie stations to all eastern Canada points. The old rate on horses from Moose Jaw to Montreal or Toronto was $1.30½ per hundred pounds. The new rate will be $1.00½ or a saving to the farmer of $30 per car.

"Will Summers," owned by His Majesty the King, was recently brought to Canada on the Canadian Pacific Steamer "Marburn" and will be kept at the Prince of Wales' ranch near Calgary for breeding purposes. This famous five-year-old has a pedigree back to Orme and Galopin, the former sire of Flying Fox and the latter a Derby winner.

It is reported that the head of the textile department of Leeds University, England, has invented a process for the making of artificial wool from cotton waste. The basis of the process is cellulose acetet. The product wears well as wool, it is said, will take the dye of any desired color and is considered a better insulator than natural wool.

During the last fiscal year Canadian exports of tobacco amounted to 471,991 pounds with a value of $175,826. Of this value the United Kingdom accounted for $135,784, the United States $5,216 and other countries $34,826. There are 125 tobacco factories in Canada, Quebec and Ontario being the principal producers.

Running on schedule the Canadian Pacific liner "Empress of Canada," Captain A. J. Hailey, again demonstrated her right to the claim of "Queen of the Pacific." The Canadian vessel left Vancouver 24 hours after the American liner "President McKinley" and arrived in Yokohama five hours in the lead.

The British Government is completing at Chatham the largest and most wonderful under-water craft in the world. On the surface she will displace 2,780 tons and when submerged 3,600 tons, this displacement being 1,400 tons greater than that of the largest German submarine. With a twelve-inch gun the new submarine will be able to bombard any object and then quickly disappear under the sea.

"I Had Terrible Backache From Kidney Disease"

Mrs. M. A. McNeill, Canaan Sta., N.B., writes:

"I was troubled for years with terrible backache, resulting from kidney disease. At times in each month I remained in bed, the pain was more than I could stand, and to walk was almost impossible. I used about $50.00 worth of other medicines, but with little results. Now I am completely better, after using only five boxes of Dr. Chase's Kidney-Liver Pills.

NIGHT FLYING BY AVIATORS

Night-flying by aviators has been brought before the public by the great nonstop flight across the continent by Lieutenants MacReady and Kelley and, through this demonstration of its feasibility general night flying and the delivery of mail during the night may become an accomplished fact before the end of the summer, according to J. O'Malley of Chicago in a recent address before the Chicago Aviation Club.

A great part of the plans for this epoch making achievement in aviation now rests with the public utility lighting companies or the cities themselves," said Mr. O'Malley "Guide or beacon lights are necessary for night flying particularly when stops are to be made for a great start has been made in this respect, as well as in the construction of landing fields and probably more work will be done in this direction during the coming summer.

"The United States Aerial Mail has developed a plan for flying night mail which seems thoroughly practicable, once the various cities over which the night mail passes agree to maintain the necessary lighting system and emergency landing fields.

" It is a fact that the whole future success of the aerial mail hinges upon the success of night flying since the time lost by laying over nights would eliminate the saving in time obtained through day flying

"The night flyer is reduced to flying by compass, and no compass has yet been evolved that is sufficiently reliable to be depended on exclusively. Then the question of forced landing is involved. In event of motor failure the flyer is obliged to make a landing. This is sometimes dangerous, although not as much as one might think, since a plane, properly equipped with search lights operated from battery can be guided intelligently when near the ground, although being without power it cannot rise again if the ground is unsuitable for landing.

"In general, night flying depends upon beacon lights at various points along the route by which the flyer may know his location; emergency landing fields indicated by upward streaming searchlights; planes equipped with searchlights for landing and the cultivation of a night "flying sense."

ECZEMA

You are not experimenting when you use Dr. Chase's Ointment for Eczema and Skin Irritations. It relieves at once and gradually heals the skin. Sample box Dr. Chase's Ointment free if you mention this paper and send 2c. stamp for postage, etc. a box; all dealers or Edmanson, Bates & Co., Ltd., Toronto.

YOUR DUTY TO YOUR HOME TOWN

What do you owe your town?

There is a fact now overlooked by citizens in general, namely that they owe something to the town in which they live.

The sidewalks you walk on, the streets you drive on, the water in your homes, the light you read by; these and many other things were obtained by the constructive effort and forsight of others.

Some of us go, year after year, partaking of the benefits which the town affords, but undertaking none of the responsibilities which it imposes. We are only too free and willing to comment on and criticize the action of others, but when it comes down to taking a hand we are not among the number.

We allow others to be school trustees, but send children to the schools; we allow others to be Councillors, but eagerly criticize their mistakes; we allow others to join the Board of Trade, and feel free to disparage their activities; we take advantages, but get from under the obligations; and then say to ourselves: "This is a dead town."

A town composed of critics and drones is bound to be dead, it can not be otherwise. Criticizing alone never brings results; it takes a constructive effort to build anything

Sacrifice a little of your own time for the benefit of the rest of the citizens. It is not actually a sacrifice but a duty which you owe the rest of the public and yourself for the advantages you will receive.

RED ROSE TEA "is good tea"
You should try the ORANGE PEKOE QUALITY if you like a tea of the very finest flavor.

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds	Headache	Rheumatism
Toothache	Neuralgia	Neuritis
Earache	Lumbago	Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists.

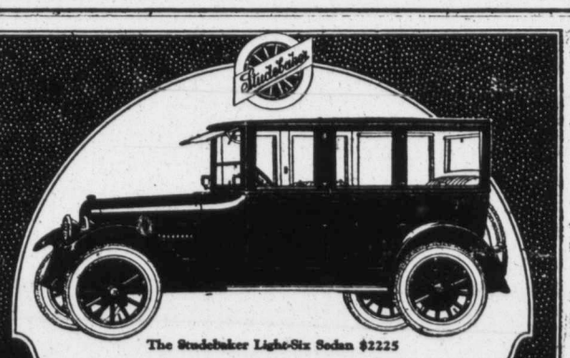
Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

IS YOUR MONEY SAFE?

Hidden in your home it is a temptation to thieves.

Deposit your money in the bank and rent a SAFETY DEPOSIT BOX for your valuable papers, Victory Bonds, etc.

THE ROYAL BANK OF CANADA



The Studebaker Light-Six Sedan $2225

—But You Can't Ride on the Paint!

Imitation diamonds can be made to look so real and sparkle so brightly that it is difficult to tell them from the genuine.

But try to sell one and you will find out its real worth in a flash.

Same with automobiles. Weaknesses of construction in a closed car can be hidden, for a time, with paint and varnish and fancy fittings. But all is not quality that glitters.

You can't ride on the paint. And when you place such a car in the second hand market, you suffer a heavy depreciation, because it lacked real intrinsic value at the outset. Use will never improve a mediocre product.

Motor car owners tell us that the trade-in value of any Studebaker car at the end of three or four or five years of useful life is greater than on any other car built today—the percentage of depreciation is the lowest.

No wonder the Studebaker Light-Six Sedan is the fastest selling quality Sedan in the world!

The name Studebaker stands for quality, durability, comfort and integrity.
