Annual Report of the Bank of Montreal.

Elsewhere in this issue we publish general statement of the result of for the year ended 31st Oct. 1913. nents on the financial stringency Great Britain in regard to loans and the onerous conditions exacted. It is gratifying to notice that the directors recognize that the high prices of fish obtained in Newfoundland have induced an era of prosperity. This tion to take home with them an President to continue in the effort they have made the past few years The report, in part, points out the capital remains at \$25,000,000, the rest at \$16,000,000. Out of net earnings which, for the year, amounted to \$2, 648.402.86, \$243,402.86 was transferred o profit and loss account, bringing that balance up to \$1,046,217.80, and there has been set aside for bank emises account during the year ar ist June and 1st December over and above the quarterly dividend of 21

"Turning to our assets, the current cans and discounts in Canada and ing to \$134,160,000, show an increas of \$15,000,000, caused by taking (legitimate requirements of our cu omers. Investments in railway and other bonds are \$12,933,000. Bank remises. Montreal and branches, re nain at \$4,000,000. Call and other ouns in Great Britain and the United tates are \$51,240,000, against \$55 50,000 a year ago, which deduction with \$8,000,000 withdrawn from forign correspondents and agencies of entioned above. Our bills payable At that time, however, th ability instead of being included i e general statement as at present. "In regard to the general situation.

he year 1913 may be truly described

a a memorable one. In Great Bri-'ain it has been disturbed and disappointing. The demands of porrowing cuntries, both old and new, have outrun capital supplies, and there has been an ever-increasing difficulty in obtaining loans, however sound the security might be, and, when obtainble, the rates and terms have been ar more onerous than for many years

"These conditions abroad will no outht take time to ameliorate, an mprovement will probably be brough bout by reduced trade activity radually releasing money for invest nent and hoarded funds; but the pro ess will of necessity be slow. "In Newfoundland the high prices obtained for fish have induced period of prosperity. The building of branch lines of railway, the development of the mining of iron ore at Bel sland, and the growth of the pul and paper industry have all improved
