Public Opinion.

In years gone by Public Opinion was a grand and a salutary corrective of any attempts on the part of public men to perpetrate acts of a wrong nature in the expenditure of public funds entrusted to their care. An insidious change seems to have grown upon the public within the past ten years or so, and the public men in charge of affairs have destroyed this wholesome public opinion and enlisted a depraved sentiment on their own side to condone the most outrageous acts of extravagance and corruption. As a matter of fact the old time public opinion—the safety valve of Newfoundland—seems to have been completely destroyed. A materialistic spirit of selfishness and personal aggrandizement seems to have brought on this retrograde condition of affairs. Not many years ago men in this country valued principle more than money; now their descendants seem to value money more than principle, and so the whole community is becoming demoralized and degenerate. This state of affairs in public life to-day cannot be denied, and it bodes ill for the future welfare of Newfoundland. When it can be truthfully said "there is no public opinion" then we have come to a said and pathetic stage in our history. If we are reduced to the position that we have to all bow down as subservient slaves to the ruling party in the state, no matter how corrupt that party may be, then our case is hopeless and we are contributing in an unworthy manner to bring about the ruin of our country. The electors who voted for the present Government expected plenty of employment and they have been badly deceived. The men they voted for are all well provided for, and they are not worrying over the fact that their supporters are unable to get employment. They are safe, they think, for four years, and will not bother about the electors till the eve of a general election. The strenuous campaign meant only one thing for them—that is to put them in pleasant places where they could draw good salaries from the public monies. If you, Mr. Voter, are not known to be on their side and are not willing to agree that the most outrageous acts they commit are O.K. then you will become anathema. To keep yourself alive you can't do that, therefore, there can be no public opinion to come forward to show disapproval of the most outrageous acts that this Government may commit. Poor old Newfoundland. Do we ever think when we recall the splendid unselfish spirit of our fathers and their sacrifice of self interest for right and justice that it could ever come to this?

Let Justice Be Done.

The charge made in the House Tuesday evening by Sir Michael Cashin to the effect that a "Minister of the Crown had drawn a cheque on the public Treasury for money to pay his election expenses" is one of the most serious

accusations ever made in the House of Assembly. Either Sir Michael is right or he is wrong. This is the point that should be cleared up without any delay. The public are expecting that this will be done. Sir Michael gave weight to the accusation when he added that he had the documentary evidence in his pocket. It is impossible that the matter should end here, and the next move, we think, devolves upon the accuser to name the Minister who is involved in this scandal and to institute an enquiry. Surely it has not come to such a pass in public life that the people are so accustomed to hearing of deeds of malfeasance and political corruption that they are resigned to accept this charge as something that should be regarded as a normal occurrence, that should be taken as "part of the game," for which it is useless to endeavor to arouse any public condemnation. If this be so, as a people, have degenerated beyond all hope. If this charge be true and can be substantiated the impeachment of the Minister who is guilty would do more moral benefit to Newfoundland than all the uplifting agencies of school, press and pulpit could accomplish in a lifetime. If it be true and can be substantiated and is allowed to go unpunished, with a joke and laugh, then all the agencies working for moral uplift will find their work more difficult than ever, and if this is condoned by silence all their professions will be discounted. We know what would happen if such a thing took place in England: the man guilty of it, no matter how exalted his position, would be the very force of public opinion be driven forever from public life. We only need to recall the cases of Parnell, Bradlaugh and Bottomley. A wholesome and strong public opinion kept the Nation safe. If public opinion in this country has fallen into the position that such accusations as that made by Sir M. P. Cashin are going to end there and be taken as a "good joke," then all we have to say is "God help Newfoundland."

Will Get All The Good Jobs.

Already we have evidence through people who arrived from the Humber that strangers are getting all the good jobs and the Newfoundlanders are being relegated to the menial position of "the hewers of wood and drawers of water," and have to put up with the domineering conduct and overbearing mannerisms of the imported officials, who are so far being paid out of the money of Newfoundlanders borrowed by the Government from the Bank. Before this Bill passes into law in the House there are many details which may not now seem to be of much importance to the parties to the contract but are of vital concern to the poor men who go in there to seek a day's work, which rate of wages per hour. It will be too late to complain about these matters when the Bill is passed and entered on the Statute Book. The discrimination against labor to some and turning down others will have to be provided against. If politics are allowed to permeate the business of taking on men there is going to be trouble. If the proposition is going to be an industrial success politics as a factor in getting labor will have to be cut out. Reports that have been brought to the city this week are anything but reassuring towards the idea that everything in this respect is at it should be. If a square deal is not given to the men they will not go to the Humber to look for work, but will prefer to go out of the country. In a contemporary yesterday appeared a notice that there would be no work given to men of St. John's or Placentia till all the laborers seeking work from the other districts seeking employment had secured the same. If this sample of narrow meanness expresses the desire and intention of the Government it shows a deplorable condition of affairs, and if continued to be indulged in will give the Humber proposition a black eye and will militate greatly against its success.

Magistrate's Court.

A vagrant, arrested on a charge of breaking a pane of glass in the shop window of Mrs. M. Pike, Grocer, Alexander St., with intent to steal, was remanded for eight days. A business man of Water Street was fined \$10.00 and costs for driving his motor car on an excessive speed along LeMarchant Road, on Saturday afternoon last. A motorist of Duckworth Street was summoned for driving his car without first having obtained a license. A fine of \$5.00 was imposed. A motor cyclist for exceeding the speed limit was also fined \$5.00.

In Passing.

In the House of Assembly on Tuesday a statement was made which, if true, deserves something of more than passing notice.

The statement implied that a member of the Executive Council, who is also head of a responsible Crown department, did wilfully use the funds of the Colony to defray his personal election expenses.

The member who made this specific charge in his previous remarks challenged contradiction of his assertion that large sums of public monies had been voted in various districts previous to Nomination Day for which no work or returns were forthcoming.

Continuing, the speaker, Sir M. P. Cashin, said:—

"I now make the charge that a Minister of the Crown drew cheques on the Treasury to pay his election expenses in the recent campaign. I can prove it. I have the cheques in my pocket. I purchased them." Accepting the statement of the honorable member who made this charge as correct, and that the facts as outlined are substantially true, it is the bounden duty of the Attorney General to order an immediate enquiry with the object of retaining the charge, which if not investigated will also incriminate every member of the Government.

If there is no foundation for this alleged fraud, and apology is due the Minister of the Crown, who is one of the advisors of His Majesty's representative in this Colony.

In the event of the Minister of Justice ignoring this publicly stated charge, it will be necessary to draw the attention of His Excellency the Governor to same, as it unquestionably reflects upon the official conduct of one of his executive members.

The matter is one of much importance and should be ventilated, with all the possible assurance, leaving no doubt as to the innocence or guilt of the party referred to.

Sir Michael Cashin satisfied the Assembly that he is in a position to prove the truth of the charges he made, and unless he is challenged further the stigma of disgrace contained in same must likewise be borne by every member of the Assembly, particularly those sitting on the left of the Speaker.

Should any Minister of the Crown should violate the laws of the land is almost unbelievable, yet in this instance the charge has been made openly and publicly on the floors of the Assembly.

The people, irrespective of all political thought, look to Sir Michael to bring this matter to the attention of His Excellency the Governor in order that a thorough investigation be held and a true verdict rendered.

Seal Disabled off Snug Harbor.

RANGER GOES TO SHIP'S ASSISTANCE.

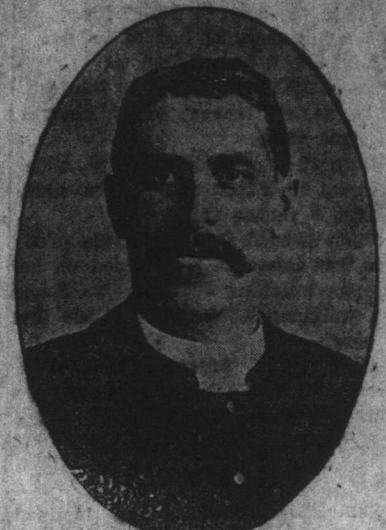

A wireless message from Captain Jacob Kean of the S.S. Seal was received by the Department of Shipping yesterday afternoon, reporting that the ship had lost four blades of her propeller while combating the solid jam of ice that extended along the Labrador Coast, off Snug Harbor, and is now in a helpless condition and waiting for assistance. The Seal had on board some 350 passengers, 150 of whom were landed some days ago. The ship was in a position to be of much importance to the parties to the contract but are of vital concern to the poor men who go in there to seek a day's work, which rate of wages per hour. It will be too late to complain about these matters when the Bill is passed and entered on the Statute Book. The discrimination against labor to some and turning down others will have to be provided against. If politics are allowed to permeate the business of taking on men there is going to be trouble. If the proposition is going to be an industrial success politics as a factor in getting labor will have to be cut out. Methodist Conference Notes.

REV. S. BENNETT
President of the Methodist Conference.

Fortieth Session Convened
REV. SIDNEY BENNETT OF GRAND FALLS ELECTED PRESIDENT; REV. EZRA BROUGHTON OF HEART'S CONTENT RE-ELECTED SECRETARY.

The Ministerial Session of the Newfoundland Methodist Conference was convened on Tuesday at 9.30 a.m. President W. J. Morris in the chair. After the usual devotional exercises the passing of Rev. W. H. Brown, the ordinations for special reasons of Rev. L. W. Blunden; ordination of Rev. C. F. Davis and reception into full connections of Rev. W. D. Stenlake.

Twelve young men were received on trial as Candidates for the Ministry. Most of them have already been in charge of mission fields for the year past. Six others were received and their names will appear in the Station Sheet. Professor H. Gordon Hatcher, B.A., B.D., and Rev. L. G. Hudson, M.A., D.T.E., resigned to engage in educational work and ministerial respectively in other lands. Two probationers died during the year, Messrs. Martin of Hickman's Hr. and Howell of Carbonear, two young men of sterling characters and brilliant promise.

Tuesday evening the Members of Conference were the guests of Dr. and Mrs. Curtis at Wood's Restaurant. After a very sumptuous repast brief addresses were made by Rev. Frank Langford and Dr. Geo. Trueman.

At the evening session a meeting along the lines of Religious Education was held in the Conference Church, Mr. W. H. Peters in the chair. Rev. O. Jackson presented the report of the work in this Conference during the past year. The special speaker for the evening was Rev. Frank Langford who gave an intensely interesting address which was enjoyed by all present. He pointed out that the child holds a very important place in religion, and that the leaders of the Church should seek earnestly to bring him into proper relationship with God.

THE GENERAL SESSION.

The General Session of the Conference met at 9.30 Wednesday morning. After the administration of the Lord's Supper election of officers took place, resulting in the election, as second ballot, of Rev. Sidney Bennett of Grand Falls. On the first ballot Rev. E. Broughton was re-elected secretary by an enormous majority. C. R. Blount was appointed statistical secretary, Rev. H. G. Coppin Journal Secretary, Revs. E. J. French and Geo. Pickering, assistant secretaries.

At the opening of the afternoon session the president elect briefly addressed the conference and showed that he had been sustained in his career in the ministry by these convictions: (1) The definiteness of the call to the ministry; (2) The known value of the message; (3) The sure result of the work of Christ. He always tried to make Jesus the central theme of his preaching.

After the reading of miscellaneous resolutions from the different districts Dr. Trueman, the new President of Mount Allison University, but still representing the Educational Society of the Church spoke on the good work of his department. He urged the necessity of religious education in the secondary schools. He reported that Victoria and Knox Theological Schools at Toronto are uniting already. In British Columbia the Anglicans are likely, as in Montreal already, to enter into a union theological school. A vote of thanks in appreciation of Dr. Trueman's address, moved by Mr. W. H. Peters, was carried with a standing vote.

The report of the Secretary of the Finance Department, Rev. S. W. Dean, was then read. During the year three million pages of literature have been sent out. Four hundred and twenty-four circuits have been assisted in their building projects during the year. The denominational treasury is now doing a \$2,000,000 business annually and its profits are being turned into new building projects. The increase in standing insurance is \$6,000,000 in our property.

THE STATE OF THE WORK.

In the evening session at 8 o'clock the report on the state of the work

was presented by the Rev. I. F. Curtis showing a decrease in membership caused by (1) The exodus, during the year, of so many of our people from Newfoundland; (2) Careful revision of membership lists; (3) The lowering of our own standards of discipline.

The two speakers of the evening were Revs. O. Johnson and R. H. Mercer, both of whom gave able and convincing addresses pointing out some of the evils which ministers of the Gospel have to combat, and urging the importance of the Gospel as a remedy for the world's ills. The people of Newfoundland were a generous people, which was the acid test of Christianity and they had an evangelical background. The Church needed not a new interpretation of the life of Jesus, but just Jesus himself. Both addresses were educative and convincing and left an impression upon all who were privileged to be present. A discussion followed in which Dr. Curtis, Dr. Fenwick, Rev. J. Wilkinson and others took part. The report presented by Rev. I. F. Curtis was then taken up item by item and adopted. The evening sessions closed at 10.30 with Benediction by Rev. Dr. Dunn.

No Word From S.S. Seal

ON ACCOUNT WIRE TROUBLE.

The Dept. of Shipping received no word of the S.S. Ranger reaching the Seal up to press hour. The electrical storm which was felt all over the country early this morning, interrupted the telegraph wires, consequently no messages can be received. It is presumed that the Ranger is alongside by now, as Snug Hr. was only 60 miles away when she passed. Snug Hr. at noon yesterday. The Seal will be towed into Snug Hr. by the Ranger and on the latter's return will be towed back to this port. Two hundred of the passengers which still remain on the Seal will be taken to their destination by the Ranger and Sagons, the latter ship being also on her way to the coast.

A Mill Accident Reported

A frightful fatality in which a man's body was severed by a circular saw is a report brought to the city by several people from Trinity Bay. The victim, a man named Stead, according to the story told, was operating a circular saw at a mill in Burgoyne Cove and yesterday whilst pushing a log against the saw the former parted without warning, so that the victim was thrown against the revolving disc and partly cut in two.

Obituary.

MRS. J. R. MULLINGS.
The sudden passing away of Mrs. J. R. Mullings, which occurred at her residence, No. 3 Parade Street, at 7 o'clock last evening, came as a great shock to her family and her large circle of relatives and friends. The deceased lady was of a retiring disposition but many a friend will mourn her passing. Being of a kind and charitable nature those with whom she came in contact in their hour of trouble and sorrow will have cause to remember her. Deceased leaves a husband, 5 daughters, 2 sons, 1 brother and 1 sister to mourn their loss. The Telegram extends its sincere sympathy.
