FACTS FOR ADVERTISERS.

In this, as in everything else, the best papers will command the best prices. It is cheaper to pay '5s. for inserting your advertisements in a journal having a circulation of 5,000, than to pay 2s. for one that has only a circulation of 1,000. Of this you may be sure, that any journal that inserts advertisements too cheap, is, in fact, an almost worthless medium. If it were really a good one, it would have no need to lower its prices, for its sheet would be better filled without the sacrifice. You may lay it down as a rule that every journal knows its value, and that if it adopts low prices it is because it is conscious that it has a low circulation in number or respectability.—Wilson's Handbook for Advertisers.
