

Town and County News

BASE BALL.—The Rangers of this town beat Galt base-ballists in a game there yesterday, the score standing 33 to 30.

BIG CAULIFLOWER.—This season Mr. John Clark, of this town, has a cauliflower grown in his garden which measures 39 inches round.

SONS OF TEMPERANCE CONCERT.—Remember the concert at the Town Hall this evening. The old favorites, as well as several distinguished vocalists from a distance, will be present.

THE RESULT OF A FALL.—Mrs. Michael Chambers, who lives on Ontario street, met with a severe accident on Sunday last by which her leg was broken. She went out during the rain to put a tub under the water-spout, when she fell on the slippery planks, with the above result. The limb was set by Dr. McGuire.

SOCIAL IN GUELPH TOWNSHIP.—A social under the auspices of the Good Templars in S. S. 4, Guelph Township, will be held in the School House in that section, on Friday evening, 9th of October. An excellent programme, consisting of songs, recitations, etc., has been arranged for the occasion, and a first-class entertainment may be expected.

TRUTH STRANGER THAN FICTION.—We have just received from Messrs. Moore & Co., Guelph, an illustrated copy of the Beecher-Tilton Controversy, which contains a graphic record of the most remarkable social sensation in the world's history. It contains biographical sketches of Beecher, Tilton and wife, Bowen, Moulton and others, with a history of Plymouth Church, and much valuable information in connection therewith. This book is in great demand, and is selling rapidly. Messrs. Moore & Co. want agents for the sale of this interesting work, and offer special inducements.

LIGHT WITHOUT MATCHES.—To obtain light instantly without the use of matches and without the danger of setting things on fire, take an oblong phial of the whitest and clearest glass; put into it a piece of phosphorus about the size of a pea, upon which pour some olive oil, heated to the boiling point, filling the phial about half full, and then seal the phial hermetically. To use it, remove the cork, and allow the air to enter the phial, and then re-cork it. The whole empty space in the bottle will then become luminous, and the light obtained will be equal to that of a lamp. As soon as the light grows weak its power can be increased by opening the phial and allowing a fresh supply of air to enter. In winter it is sometimes necessary to heat the phial between the hands to increase the fluidity of the oil.

SOCIAL IN KNOX CHURCH.—The social held on Monday evening in the basement of Knox Church, suffered somewhat in interest from the absence of Rev. J. K. Smith, who had intended to be present, but whose arrangements for his return home did not allow his remaining till the evening. The deficiency was made up by the presence of Rev. Mr. McGuire, of Glenallan, who delivered an appropriate address. The exercises after tea comprised choruses by the choir, a solo by Mr. Allchin, and a reading entitled "Betsy and I are Out," by Mr. Thos. Benough. Rev. Mr. Ball occupied the chair during the exercises. After a very pleasant social time the large audience dispersed shortly after ten o'clock.

BAPTIST SOCIAL.—Probably the most successful of the series of monthly socials in this church was held on Monday evening. The basement of the building was filled by a very appreciative audience, and the programme comprised readings, recitations, anthems, &c., which pleasantly occupied over an hour. A select choir from the Guelph Division Sons of Temperance, under the excellent leadership of Mr. Higham, sang several anthems in good style, accompanied on the organ by Miss Ida Davidson, who also assisted Miss Jennie Hendrie in a piano duet. The length of the programme forbids further mention of its various parts. At the close a collection, amounting to about \$20, was raised towards the fund for the purchase of a bell.

CHANGES AMONG THE TEACHERS.—By reference to the report of the Board of Education, it will be seen that several of the teachers have been changed from their old to other departments, and that a resolution was passed to take steps for procuring a thoroughly competent Principal, who would take the oversight of all the schools. This is a step in the right direction, and we trust that the Board will take every pains to secure the services of a thoroughly competent and experienced person. We regret to learn that the Board has been obliged to secure the temporary services of a teacher to take the place of Mr. James Ferguson, for many years a valued teacher, and well known and highly respected in town. Mr. Ferguson has been confined to the house for some weeks by something of the nature of heart disease. We hope that he may soon recover, and that we may soon again see his open, honest and cheery face on our streets.

ACCIDENT.—On Monday afternoon as Robert Little, a boy about five years of age, son of James Little, miller, was riding in a wagon in company with other boys, he met with a rather severe accident. In the wagon which belonged to Mr. B. McTague, and was driven by one of his boys—a swill barrel, which was being taken to the distillery to be filled with swill, and inside this barrel young Little was standing. The horse was being driven rather fast, when, near Sallow's blacksmith shop, one of the boys either fell against the barrel or gave it a push, upsetting it, and throwing young Little to the ground. The barrel followed and fell on the boy's head, the sharp edge striking him on the temple above the right eye, making a gash over two inches long. A young man named David Wright was driving past at the time, and picking the boy up took him to Dr. Keating, who dressed the wound, drawing the skin together and putting in several stitches. The injured boy was then taken home, and put in a restless night, but he is progressing favorably.

A NUMBER OF VALUABLE FARMS NEAR GUELPH.

PROTECT YOUR BUILDINGS

Which may be done at one-fourth the usual Expense, by Using

Glines' Patent

SLATE ROOFING PAINT!

AGENTS WANTED IN EVERY TOWN.

A Roof may be covered with a very cheap shingle, and by application of this slat may be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better and lasting longer than new shingles without the slat, for ONE THIRD THE COST OF RE-SHINGLING. The expense of slating new shingles is only about the cost of simply laying them.

The Paint is Fire-Proof

against Sparks or Flying Embers, as may be easily tested by anyone, and appears from the fact that Insurance Companies make nearly the Same Tariff as for Slated Roofs. For Tin and Iron it has no equal, as it expands by heat, contracts by cold, and never cracks nor scales. For Fences it is particularly adapted, as it will not corrode in the most exposed places. Roofs covered with Tar Sheeting Felt can be made water-tight at a small expense. The Slate Paint is

EXTREMELY CHEAP!

Two gallons will cover over 100 square feet of shingle roof, or over 400 of tin or iron. **No Tar is Used in this Composition,** therefore, it does not effect the water from the roof, if turned off from the cistern before the first few rains. On Decayed Shingles it fills up the holes and pores, hardens them, and gives a new, substantial roof that will last for years. Curled or Warped Shingles it brings to their place and keeps them there. It fills up all holes in tin or felt roofs, and **STOPS THE LEAKS.** The color of the slate when first applied is dark purple, changing in about a month to a light uniform slate colour, and is, to all intents and purposes, SLATE. The Paint has a very Heavy Body, but is easily put on, and, although a slow dryer, rain will not affect it in the least one hour after applying.

ROOFS EXAMINED. ESTIMATES GIVEN.

And when required will be Thoroughly Repaired.

Orders Respectfully Solicited.

S. A. RUSSELL & Co., Toronto, Ont.

P. O. Box 282.
