IDN'C Three Busy Stores 228, 230, 232 Dundas Street

Marvels in Millinery

If you ever had occasion to make comparisons between this millinery store and the best that exists outside of it, you are buying your Millinery here. It would be very remarkable were it otherwise, for we are certainly embodying more style and more quality into our Trimmed Hats-the prices considered—than any other millinery store in the city seems able or willing to do.

In Ready-to-Wear Hats.

We are showing complete ranges and style at such prices as these-97c. \$1 00, \$1 50, \$1 69, \$1 85 each. BEAUTIFUL LINES OF CAM-EL'S HAIR HATS, nicely trim-med, at \$1 97, \$2 25 and \$2 49

DEATHS FROM CHOLERA

Since Epidemic Began in Egypt 2,136 When Officers Cannot Keep Discipline Have Died.

Washington, Oct. 6 .- United States Consul Smith, at Cairo, has informed the State department that the total number of deaths from cholera in Egypt since the epidemic began is 2,136. The number of cases since Sept. 21 is 2,114. The report says the conditions continue to improve.

Remarkable Recovery From Nervous Collapse

A Methodist Minister Tells How He Was Rescued From a Helpless Condition by

Dr. Chase's

Nerve Food.

That Dr. Chase's Nerve Food pos-Besses unusual control over the nerves and rekindles nervous energy when all other means fail is well illustrated in the case described below. Mr. Brown was forced to give up his ministerial work; and so far exhausted that for a time he was positively helpless. Doctors were consulted and many remedies were resorted to, in vain. Every effort to build up the system semed in vain, and it is little wonder that the sufferer was losing hope of recovery, when began to use Dr. Chase's Nerve

Rev. T. Brown, Methodist minister, of Omemee, and late of Bethany, Ont., writes: "A year ago last November I was overtaken with nervous exhaustion. For six months I did no work, and during that time I had to be waited on, not being able to help myself. Nervous collapse was complete, and though I was in the physician's hands for months, I did not seem to improve. At any little exertion my strength would leave me, and I would tremble with nervousness.

"From the first I used a great many perve remedies, but they seemed to have no effect in my case. I had almost lost hope of recovery, when heard of Dr. Chase's Nerve Food, and began to use it. As my system became stronger I began to do a little work, and have gradually increased in nerve force and vigor, until now I am about in my normal condition again. I consider Dr. Chase's Nerve Food the best medicine I ever used. Not only has it proven its wonderful restorative powers in my own case, but in several others where I have recommended it."

Dr. Chase's Nerve Food, 50 cents a box, 6 boxes for \$2 50. At all dealers, or Edmanson, Bates & Co., Toronto.

Buckingham Palace, once more the principal residence of the British court, is so-called because it occupies the site of a house built by a Duke of Buckingham in 1703. Many people, however, think it would be more appropriate to give the building a national title. THE HEALTHY GLOW disappearing from the cheek, and moaning and rest-lessness at night, are sure symptoms of worms in children. Do not fall to get a bottle of Mother Graves' Worm Exter-minator; it is an effectual medicine.

PROOF OF INCOMPETENCY

Without Aid of Canteen.

Springfield, Ohio, Oct. 6 .- Edwin Dinwiddie, president of the American Anti-Saloon League, gave out the following statement with reference to the attitude of the league on the army canteen: "If such reports as are published from Gen. Funston are correct, two things are apparent. First, that the canteen, or beer-selling army saloon, which has so debauched men in service that these conditions of drunkenness and disorder exist, not by reason of it abolition, but because its presence during twelve years h iemoralizing effects on officers and men; second, when generals and commanding officers are ready to state that they cannot maintain discipline without a beer saloon, it is certain proof of incompetency. We demand a fair trial of the post exchange system with the canteen eliminated. Congress appropriated \$500,000 to improve the men's condition, and added 5 cents daily to their rations, a laudable change in the Government's policy. People will never consent to a return of the canteen without a trial of this substitute. There is a serious temperance problem in the army. We advocate the stoppage of official saloons, a provision for the recreation and sociability among the men, and disciplinary orders against drinking. We advocate the present law on the broad principle that the Government should neither have been in the saloon business nor permit premises to be used for such purposes, nor officially tempt its soldiers to drink."

Dr. Parkin's Work.

London, Oct. 6 .- Charles W. Boyd, who has returned from a holiday in Switzerland, has established an office for the financial and general administration of the Rhodes educational trust for American, German and colonial students at Oxford. He has entered upon the work as permanent secretary, and tells me that the trustees of Mr. Rhodes' will are hopeful that the scholarships can be founded and students aided a year hence. They are waiting for a detailed report from Principal Parkin, of Toronto, who went to America for the purpose of consulting President Roosevelt and other authorities, and devising a general scheme of operations. Dr. Parkin was highly recommended by Lord Milner as a practical and progressive educator, who would carry out Mr. Rhodes' Anglo-Saxon ideals. The trustees are anxious to set the scholarships in operation, but are convinced that they must take every precaution for avoiding mistakes so that they can start the educational work in the best possible way. They are not disposed to discuss the subject until Dr. Parkin has had full leisure for formulating a general scheme of work.

Stern measures may have to be taken with American poachers who insist up-on fishing within the Canadian waters of Lake Erie. During the past season over 800 nets set by them have been seized and confiscated, but the marauders appear to be as numerous as

TORONTO WILL BUY FUEL BOERS WILL BE FAITHFUL

City Council Votes \$50,000 for If Conditions of Peace Are Obthe Purpose.

Toronto, Oct. 6.-The city council topurchasing tuei for sale at cost price to charitable institutions and to citizens in limited quantities. The council arso accepted and appointed a commitbe 60,000 cords, which the mayor stated can be laid down in Toronto at \$3 821/4 per cord. This committee will also on crown lands. The mayor had read the correspondence between himself and officers of the Dominion Coal Company, in which the officials stated that it would be impossible for the company to supply coal to Toronto, both because their output was already contracted for and because of the prohibitive transportation charges. As a result of this refusal the council passed a resolution, at the mayor's suggestion, to petition the Dominion Government to expropriate a portion of the lands granted by the Government of Nova Scotia to this company for the benefit of the public. Another resolution calls on both the Dominion and Ontario Governments to examine lands still held by the crown to see if any coal may be found, in which case the land should be held for the benefit of the public.

In connection with the proposal to cut timber on crown lands, Premier Ross said today that he had been misreported in some Toronto papers. He says he is willing to consider such proposals if made by municipalities, but that the matter is not so easily arranged as it may seem. It would be necessary to send an agent with any cutters in order to locate them. for much timber land, which might appear only as forest, is under license to timber men.

Mayor Howland announced today that he had received a cablegram from Wales offering to lay down a shipload of Welsh coal in Montreal at 48 shillings per ton for large size and 22 shillings for small size.

OTTAWA IS FORTUNATE. Ottawa, Oct. 6.-The mayor reports this morning that the finance committee has succeeded in buying for the city 4,000 tons of Welsh anthracite coal, which will be delivered here in about five weeks, and 4,000 cords of hardwood for delivery as required, and has also secured options on from 6,000 to 7,000 tons of Nova Scotia coal. The prices have not yet transpired.

DUEL OVER ZOLA'S DEATH

General and Journalist Fought With Usual Result.

cabinet of the minister of war, and arrived on the steamer Minneapolis tohands with him. The general, in his hands with him. The general, in his letter replying to the question of Count Boni De Castellane on this subject, described Pollonais as a "renegade Jew," and also told the count he did not admit the latter had any right to judge his actions. M. Polnais then challenged Gen. Parcin and they fought with swords near St. Cloud this afternoon. The general was slightly wounded in the hand.

The Macedonian Uprising.

London, Oct. 6.-The most important foreign question is the Macedonian uprising or agitation, concerning which there are contradictory rumors. There has been no serious fighting, and the insurgents are hardly capable of carrying even a guerilla warfare against the vastly superior force massed against them by Turkish pashas. The adoption of decisive measures for the suppression of the revolt before a sympathetic movement can be started in Servia and Bulgaria, may involve massacre and slaughter. Idealists are proposing that Macedonia shall be converted into a principality, self-governing, and paying tribute to the Porte, but the Turkish Government is certain to resist this plan for the deliverance of the Christian state from Ottoman rule, and the powers will not move unless the European conscience is stirred by massacres more atrocious than those witnessed in Armenia.

BRAIN POWER

How It May Be Strengthened and Increased.

The brain is a great nerve battery that presides over all the powers and impulses of the human body. Very frequently as the result of poor blood it becomes enfeebled, and a gen-

eral weakness of the entire system fol-No remedy possesses the marvelous

brain strengthening power that Fer-rozone has demonstrated in thousands of cases. It contans an abundance of phosphorus and iron which are essential in the formation of red vitalizng blood, and in this way supplies the brain with

extra power to perform its numerous and important duties. Ferrozone is the best peparation for brain workers, and those inclined to a sedentary life. It improves the appetite, insures good digestion, regulates the bowels, and helps the stomach to do its work.

Lawyers, ministers, and those whose occupation entails much thinking and brain labor, will find Ferrozone of immense value, because of its power to stimulate mental activity. Students who take Ferrozone regularly, find it not only clears the brain, and makes it more receptive, but makes them

strong in body as well as mind.

A medical student of Toronto University, who has proved the good qualities of Ferrozone, says: "On my study table there is always a place for Ferrozone. I find by keeping my digestion in perfect order, and mantaining a splendid appetite, it enables me to accomplish a great deal of hard work. I consider Ferrozone at the same time food for the brain, the blood and the nerves, and can highly recommend it." Very few are so strong and healthy that a course of Ferrezone would not benefit. It is good for the young and old alike, and is prepared in convenient tablet form, price per bcz. 50 cents; sold by all druggists and N. C. Polson & Co., Kingston Ont.

served, Says Gen. Botha.

Civic Fuel WilliBe Sold to Citizens at Emperor William and His Attitude Toward Boers.

London, Oct. 6.-The Secoolo, says a lay voted \$50,000 for the purpose of Rome correspondent, warns the Boer generals that they cannot consider themselves as flattered by Emperor William's tactics. It declares that the tee to dear with Aid. Foster's offer to Emperor "has always cynically used present standing timber, supposed to the Boers for his own political ends." In 1896, the Seccolo observes, the Kaiser sent his famous telegram after the Jameson raid. He was anxious then to propitiate the South African Republic in the interest of German finance, and he has also had an eye to German colonial expansion. During the recent war, foreseeing the result, he was anxious to neutralize German anglophobia, so he went to London and affected an attachment to the British nation. Now, in order to propitiate the German pro-Boers, he smiles on the generals after refusing to receive Mr. Kruger. The Seccolo says it is a pity that such men as the Boer generals should be the vic-tims of this "imperial tight-rope danc-

VALOR OF BOER WOMEN. A Brussels correspondent says that in speaking at a meeting at Zwolle.

Holland, Gen. Botha referred to the South African concentration camps in a tone not calculated to remove false impressions in regard to them still current. He dwelt on the valor of Boer women and their fixed determination to transmit the use of the Dutch ianguage to their children. As an instance of Mr. Kruger's "unquestioned integrity," Gen. Botha stated that the expresident, when leaving South Africa for Europe, reimbursed \$70,000 standing to his (Gen. Botha's) credit in the state treasury, and also \$200,000 worth of Government bonds.

In a subsequent address, General Botha said: "In the presence of this immense enthusiasm we ask ourselves, Why was there no intervention? God willed that we should lose our independence; we will remain faithful to our new country if the conditions of peace are observed."

GENERALS ARRIVE AT BRUS-SELS.

Brussels, Oct. 6.-The Boer generals, Botha, Dewet and Delarey, arrived here this evening and were greeted by an immense crowd. In a speech from a balcony of his hotel, Gen. Dewet reiterated that they had not come to -urope to seek vain support or to make efforts to regain their independence, but to obtain help in repairing the ravages of war.

LADY SOMERSET ARRIVES

President of World's W. C. T. U.

Reaches America. Paris, Oct. 6.—The death of Emile
Zola was the indirect cause of a duel
today between Gen. Parcin, chief of the
Cabinet of the Gen. Parcin, chief of the New York, Oct. 6 .- Lady Henry Sommen's Christian Temperance Union,

tionalist writer, who was responsible day. Lady Somerset is here for the for the statement that Gen. Percin met Dreyfus at Zola's residence and shook vention of the Women's Christian Temvention of the Women's Christian Temperance Union, and to study with the help of the American organization the work of reclaiming inebriates.
"I am looking forward to studying

American methods," she said, "with great enthusiasm. Our union in England-has been advancing with great strides during the past two years and we have done an enormous amount of good work."

'Varsity Deficit.

Toronto, Oct. 6 .- As a result of recent conferences between the Ontario Government and the authorities of Toronto University, the Government has decided to include in next session's estimates \$10,000 to cover the university's deficit of last year. Premier Ross has intimated that the Government is prepared to stand by the university.

Tired of Eluding Justice. Akron, Ohio, Oct. 6 .- "I'm tired of feeling every minute that someone is coming up behind to grab me," said a well-dressed man of 35, entering the central police station yesterday after-noon, and further stating that he was wanted in Baltimore on the charge of embezzlement. He registered as Jos. Smith, and said he had been a bookkeeper for the National Biscuit Company, and last Wednesday defaulted. Baltimore officers have been notified Smith says he has a family in that

Earthquake at Guam.

Manila, Oct. 6.-The collier Austin. which has just arrived here from Guam, brings reports of a series of severe earthquakes there Sept. 22, as a result of which the marine barracks at Agana and other buildings collapsed and much other damage was done. The natives were killed. One hundred and eighty shocks were experienced in 24 hours. The population was terrorized and fled from the buildings and encamped outdoors.

Brothers Reunited.

Port Huron, Mich., Oct. 4.-An unusual family reunion is being held in this city today, and for the first time in 45 years Philip C. Scott, of Peoria, Ill.; William B. Scott, Pioton, Ont.; James Scott, Gillman, Ill.; Matthew C. Scott, of Peabody, Kas.; Peter Scott and Edward Scott, of this city, are together. It is the first time in 45 years that the brothers have been together, and some of them have not seen one another for 35 years. Two of them are old soldiers, and death has not entered their ranks.

Natural Gas at Port Robinson. Port Robinson, Oct. 6 .- A huge force of natural gas has been discovered on the flats of the Welland River at Port

Robinson that promises to eclipse anything yet discovered. Gurgling and roaring sounds were heard beneath earth that had been recently dumped on the flats, and investigation led to the discovery of huge quantities of gas escaping from apertures in the newly-formed earth, where the gas forced its way through by virtue of its great pressure. The theory of experts is that the gas has been escaping from the surface of this marsh for years undiscovered, and that when the soft earth was deposited on it it was confined for a time, until it forced its way through at hundreds of points to the surface again. The gas is of the finest quality, being odorless, burning with a blue flame and producing an intense heat. Steps are being taken to develop a gas well at once. There is great excitement in the town over the discovery of what undoubtedly will prove to be one the greatest gushers in

How are You?

Do you suffer from constipation? Does your liver need regulating? Is your digestion troublesome? Doyousufter from headache? Ifso, you should take

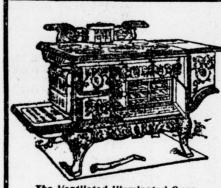

every day. This harmless tonic and system cleanser will regulate every organ and will remove all theunpleasantfeaturesthatattend a sluggish liver. Your health and spirits will be so improved that your friends will scarcely know you. Pleasant to take—surely bene-ficial, but be sure that you get the genuine " Abbey's."
