It will be remembered how trethat there was going to be war, and that Great Britain, Russia and France would all be in it. It shows clearly enough that so far as Germany was concerned the interchange of notes between London and Berlin during the days immediately preceding the declaration of war, was just an effort to mislead the world. The Kaiser and his war lords had planned the war, were ready for it, and had not the slightest intention of being side-

HYDRO-RADIALS.

tracked.

THE amendments to the hydroelectric bill offered in the Legislature ten days ago, reported by committee, and received in the House, without more than passing comment, are important enough to attract the attention of everyone interested in radial development in Ontario. They are of special interest in Western Ontario, where the greatest radial development is certain to come, and where every municipality is looking forward to securing the benefits of electric cars. When the hydro-radial project was

advanced two years ago it was stated that it would involve no burden on few Hohenzollerns, Bernhardis, Beththe municipalities or the province in All that was necessary was the guaranteeing of bonds. The prov- these ince and the municipalities were to ter of form, then the rails would be laid, the cars placed in operation, and of paper" with the Prussians. the public would reap both direct and indirect benefit. The proposition looked VON KLUCK TURNS UP. enticing, at least.

No one in Western Ontario will dispute the advantages of a network of electric car lines built through the most electric commission to build the lines.

the amended bill is the power given worth noting Von Kluck was not made the hydro-radial commission to take the scapegoat, and that the Crown over any existing radial or any part of Prince long ago gave way to the rea such radial it may desire to use in its fighters. general plan. This means the elimination of all radial railways in the province except those operated by the hydro for private capital will not risk an investment which is liable to be lost to them when it begins to reach a paying basis. Experience has shown that radial railways frequently do not pay dividends until years of operation have created sufficient business, and many radials have never become profitable ventures. So private capital cannot be expected to enlist in an enterprise that promises no future.

The question then sums itself up: Private capital is driven from the radial field in Ontario, Public capital cannot enter the field, because, as overtrained, and the strain is beginmany planned the war and was Premier Hearst says, it is not available, and it will not be available until

The Advertiser has been the foremost champion of radials in Western clue for the spy-hunters! Ontario, and believes that hydrothen the owners have been sued because of failure to deliver portions of roads, if they are built and operated the cargo, and a few days ago Capt, on a sound business basis. It believes Pollack, in explaining the delay to the that the Government should extend a court, uncovered a glaring example of bonus to hydro-radials, if possible. Capt. Pollack said that when he an additional tax on the people to doesn't swear, smoke, chew, play cards, took over the command of the Cecile raise the amount of the bonus, dance or stay out nights. "Marching Through Germany"

The following poem is sent to The Advertiser by Pte. W. Garlick, one of the London boys with the C.A.S.C., at Toronto. It is one of the marching songs of the C.A.S.C.

Swing along together lads, we'll have a little song, Kits won't be so heavy and the way won't be so long, We're goin' to cook "the sossiges," to cook 'em hot and

strong. While we go marching to Germany.

CHORUS-

Hurrah, hurrah, for Berlin on the Spree, Hurrah, hurrah, there's "Sossiges" for tea, We're out to catch the Kaiser and to bring him to his knee.

While we go maching to Germany.

How the girls all love us as they see us marching by; Some of them are saucy ones, and some of them are shy Guess they know we're cold and wet to keep them warm and dry,

While we go marching through Germany.

What about the slacker chaps, who look before they leap? Lads who like to save their skins and have their proper

Let them put on petticoats and feel a little cheap, While we go marching to Germany.

"Britain's little army can be swept aside like fluff," That's the Kaiser's fairy-tale; we'll give the beggars snuff;

Rattle 'em and bustle 'em, and make 'em shout "enough,' While we go marching to Germany.

(Tune: "Marching Through Georgia.")
