GIRL BREAKS LEG.
Kathleen Gunn, 9 years old, 101 Barker street, had her leg broken in a fall down the front steps of her home yesterday afternoon. The injured child was removed to the children's hospital, where the fracture was reduced.

Wheat and barley are heading well, and flax is in flower.
Conditions generally are very good in Saskatchewan, with wheat two to three feet high. Slight damage from hail is reported in some areas.

Throughout the province of Alberta grains are well ahead of last year, and apart from scattered sections reporting damage from hot weather or hail, conditions are very good, though further moisture would be welcomed.

A few isolated reports of trace of leaf and black rust have been received from some Saskatchewan and Manitoba points, but it has not reached the damaging stage.

LIBERALS CERTAIN OF GOOD LEADERS
North Huron and South Oxford Have Several Possible Candidates.

Special to The Advertiser
Blyth, July 12.—North Huron Liberals are to have the privilege of naming a candidate for the next federal election at a very early date. Such was the official decision reached by the executive of the Liberal riding association at an enthusiastic meeting held here this afternoon.

The exact date of the nomination convention, which will be held at Wingham, is left with the president of the association, Gordon Young, Carlow, ex-reeve of Colborne Township.

The unanimous feeling voiced by the thirty members of the executive who attended the conference today, was in favor of the early placing of a Liberal candidate in the federal field to represent the party against John W. King, M.P., Bluevale, re-nominated by the Progressives last Tuesday, and George Spotton, Wingham, the unsuccessful Conservative stand-bearer in the 1921 election.

Prominently mentioned in connection with the Liberal nomination are the names of William Forbes Galloway, M.P., ex-mayor of Goderich, and Wm. H. Robertson editor and publisher of The Signal, Goderich. Either man is considered a candidate of capturing the riding for Premier Mackenzie King, and, as far as can be learned, both are willing to accept the nomination.

Dr. Galloway has behind him a fine record of medical service overseas, in addition to several years' experience in municipal politics in Goderich, both before and after the great war.

Mr. Robertson is particularly well known throughout the riding because of his affiliation with the Signal, as its editor, and for many years has made his influence felt on behalf of the Liberal party through the columns of his paper, both news and editorial.

Other Liberals who have served the party well and faithfully in the past, and whose names have been associated with the nomination at this time are: Gordon Young, president of the association; Hugh Hill, Benmiller, ex-school trustee, and member of Colborne township council, and Charles Robertson, reeve of Colborne Township, and warden of the county of Huron at the present time.

One or two papers in the county have carried the news that there would be a party convention at Wingham on Wednesday afternoon, but as no advertising has been done by the executive, it was thought advisable today to lay the convention over for a short time in order that arrangements might be made to secure a full representation of delegates from every polling sub-division in the riding.

With the Conservative party still badly split over the nomination of George Spotton, as against H. J. A. MacEwan, mayor of Goderich, and with the Progressives wavering between their adherence to a farmers' party, or a progressive party, despite their unanimity behind Mr. King, the prospects of the election of a Liberal

British Medical Journal Heralds Work of Doctors Discovering Cancer Germ

Lancet Declares It Is Event in History of Medicine.

MAY SOLVE PROBLEM

Associated Press Despatch.
London, July 13.—The Lancet, the leading British medical journal, in its forthcoming issues, will emphasize the importance of the discovery of the cancer germ by Dr. William E. Gye, a member of the British institute of medical research, and Dr. J. E. Barnard of King's College, London. The Lancet considers this discovery as marking an event in the history of medicine.

A paper has been prepared by Dr. Gye on "The Etiology of Malignant New Growths" which the Lancet will publish. The Lancet says that Dr. Gye has succeeded in rendering the cancer virus visible, and even photographing it, which the journal considers "a great achievement."

Further, the Lancet says that the results of Dr. Barnard's observations so closely correspond with the experimental results obtained by Dr. Gye that "the existence of a living cancer virus would appear to be established, and these observations may represent the solution of the central problem of cancer."

Dr. Barnard is secretary of the Royal Microscopical society.

WESTERN CROPS ESCAPES MENACE

No Damage From Any Source Is General Report in Provinces.

Canadian Press Despatch.
Winnipeg, July 13.—Optimistic crop reports continue to be received by the Canadian National Railways here, with wheat in nearly all sections of the prairie provinces in the shot blade, and in some districts nearly 50 per cent headed out. Generally speaking, all reporting stations state: "No damage from any source, and prospects of the best."

With the exception of some Alberta districts, moisture is plentiful. Hay meadows are producing a big crop and pastures are in excellent condition.

Manitoba reports show improved conditions east of Winnipeg, where flooding was reported, and a heavy yield throughout the province is anticipated.

Wheat and barley are heading well, and flax is in flower.

Conditions generally are very good in Saskatchewan, with wheat two to three feet high. Slight damage from hail is reported in some areas.

Throughout the province of Alberta grains are well ahead of last year, and apart from scattered sections reporting damage from hot weather or hail, conditions are very good, though further moisture would be welcomed.

A few isolated reports of trace of leaf and black rust have been received from some Saskatchewan and Manitoba points, but it has not reached the damaging stage.

W. Indies Rate On Mail Is Cut
Canadian Press Despatch.
Ottawa, July 13.—Hon. Charles Murphy, postmaster-general, announced that the rate on letters to the British West Indies has been reduced to three cents for a one-ounce letter, and two cents for each subsequent ounce, effective July 1. This is the rate which applies within Canada itself and to the United States and Mexico.

LEWIS IS SILENT ON BRITISH PLAN
President of U. S. Miners Says He Has Received No Appeal.

Associated Press Despatch.
Atlantic City, N.J., July 13.—John L. Lewis, president of the United States Mine Workers of America, left today for headquarters in Indianapolis, leaving Vice-President Phillip Murray in charge of the wage scale negotiations when they are resumed tomorrow.

Mr. Lewis, in leaving, said he went to attend to other matters of more immediate pressing importance than the negotiations here, which, for his organization will be continued by veteran negotiators of many years' standing.

Referring to the cable dispatches that American miners would be asked to strike in support of the English miners, Mr. Lewis said he had yet to receive an appeal for joint action. In advance of such an appeal, he had no comment to make. In the past the United Mine Workers have confined their support of European miners to expressions of sympathy.

Before leaving, Mr. Lewis conferred with Mr. Murray on the action of the Pittsburgh chamber of commerce in asking that the Jacksonville agreement be revised in order to permit more general operations in the Pittsburgh district. This evening Mr. Murray wrote A. V. Snell, secretary of the chamber, denying that the agreement is responsible for existing conditions in western Pennsylvania, and declining to consider it.

WEDNESDAY SPECIALS

Store Open All Day Wednesday

The Many Bargains Below Are Worth Considering

French Government Soothes People With Three-Day Holiday

By CONSTANTINE BROWN.
Special Cable to The Advertiser and the Chicago Daily News. Copyright.
Paris, July 13.—The high cost of living, financial troubles, the war in Morocco, and the threat of a general strike which has caused a feeling of uneasiness throughout the country, seem to have been temporarily forgotten, thanks to the government's decision making the national holiday, the 14th of July, a three-day festival.

All banks, public offices and shops have been closed since Saturday afternoon, and various colored lanterns are strung across the front of terraces and cafes, while bands are playing in every square of Paris, permitting couples to dance in the open air. There is no charge for dancing, and only a nominal charge for drinks, but the government considers the expenditure quite worth while, for it knows that the psychology of the Latin race has not changed in 2,000 years, and that bread and games will make good-humored any ill-tempered French crowd.
