what? Any number of fine promises.

When land is no longer private property they say this earth will be a kind of Heaven for the workingman. There will be no more poverty. Everybody will be no more poverty. Everybody will be no more poverty. Everybody will be no more oppressive governy ments, and grinding taskmasters will be hanished from the earth. It seems to us that a sensible man who cares for him that a sensible man who cares for him family wants something better than promises that may never be performed that,

Henry George's theory is therefore nothing more nor less than a scheme of wholesale robbery. To take from ments which the stand scheme of wholesale robbery. To take from ments which they are the said that "he had been impressed with the truths of what had been expounded." He went even further than the law about the remission of the \$105 tax. Has it found out at last that it knows even less about law than it does about politics, or has it seen that in face of the opinion of the Altorney-General and the President of the Council it is folly to attempt to make mischief among the miners?

anything for it, a just and honest principle. This is the paragraph in which the sentence, the truth of which Mr. Henry George's theory is therefore

single tax. But Mr. Beaven went further correspondent's name.

If, therefore, Mr. Wilson insists on going to the polls, it is quite clear that all votes cast for him will be thrown away.

The object of these disciples of Henry George is conspicuous in the speeches as reported in the Times, it would be still more easily seen in the speeches, of Mr. John Grant, in terms as offensive as he could make them, denies that he ever called the principle of taking men's property from them without giving them the speeches and told them they had the speeches and told them they had the speeches of the segentlemen and not those who are needy; but we are satisfied that help was wanted in Nicola, and that the head already commenced to do.
