build the road from the Columbia river to Penticton if we were properly represented before the railway committee; but the members of the cabinet had not decided then what they would do, so far as I knew, though there were rumors that Heinze was te obtain assistance. Then of course, with both the railway bills running parallel, one could not be considered without the other. Here on the one hand was the Vancouver, Victoria & Eastern and on the other was Heinze's good which would have paralleled our that Heart would be other iterations the following, distinct description of the continue of th

it," he said. "It was only a tronghteketch. The Heinze people were to receive a 46 per cent. interest in the company and our company sketch. The Heinze people were a 46 per cent. interest in the company and our company were to retain the controlling interest. For this 46 per cent. interest the Heinze people were to pay \$55,000, which represented their proportion of the money had already expended in connection with the Burrard Inlet & Fraser Volument is head act of Mr. Dunsmuir shall never be level and Victoria & Eastern railway for surveys, and so on. The draft agreement was, however, as I said, not binding enough on the Columbia & Western to force them to build the road to the Coast. The main point with me was, would they carry out the road to the Coast. There would have been no attempt at amalga, chamber of deputies yesterday. The mation but it was suggested in the company and our company were to retain the company and our company to their kind senvices, which hapened four months ago, and I have the highest words of grateful appreciation to the people were to pay \$55,000, which represent the proportion of the month services, which can be a constructed to be a supplement of the provincial gill, got tired of confinement yesterday and left without the politeness of a form a leave-taking. He was out with the trade to the const. There would have been no attempt at amalga, chamber of deputies yesterday. The mation but it was suggested in the commation but it was suggested in the commandation but it w they would carry out the project.
Dr. Milne's mail was brought in at

this juncture, and with it a letter from cussion of t Mr. Gemmill, which he opened and read several extracts as follows: "Since several extracts as follows: "Since seeing you in Toronto a couple of days age I have glanced at Vancouver and Victoria newspapers, and have seen exception has been taken to your not carrying out the proposal to amalgamate this company (V.V. & E.) with the Columbia & Western railway, the prevailing opinion being that you thereby prevented the construction this year of the latter line. It is of source thereby prevented the construction this year of the latter line. It is of course difficult for any one situated 2,500 miles from Ottawa to judge of all the facts which may have to be taken into consideration when dealing with a question of this character, and I feel sure that when the circumstances are properly under-stood those who now condemn your line of action will be the first to admit that you served your company well and pre-served it from entanglement with any

other company."

The letter further stated: "I considered it imprudent for you and Mc-Lean to enter into an agreement from which your friends could not at that me derive any advantage whatever."

Dr. Milne, after he had read this, re-

marked:
"I think all this noise about charter selling and indignation meetings was got up for a purpose, thinking that the Heinze company would receive some sympathy from the general public. The all that was done was straight-forward and in the best interests of British Columbia and particularly of the Coast; as I believe that without united action the Coast line will not be carried out for some time.

STRUCK IT RICH.

Ten pounds of as rich looking free mill-Ten pounds of as rich looking free milling ore as ever came from Alberni was brought down by yesterday's E. & N. train. It was found on the Chicago, one of the Consolidated Alberni group, which adjoins the Alberni on the south. The foreman of the Alberni in prospecting on the claim struck this vein, which at the surface shows the rich quartz a foot wide, the samples he sent down being from the surface. The specimens fairly glisten with gold, quite visible to the naked eye, and in good-eized splotches. The same vein runs through the Alberni and was first struck there, at about three Dr. G. L. Milne, who has just returned from the East, was last evening given an opportunity of explaining through the Cotonism's position in regard to that the shaft was smalk uson. On the Alberni and the ledge stripped in places the staws between the Vancouver, Victorias had the ledge stripped in places as the whole of the trade at tawa between the Vancouver, Victorias had the ledge stripped in places as the whole of the trade at tawa between the Vancouver, Victorias had the ledge stripped in places as the whole of the trade at tawa between the Vancouver, Victorias had the ledge stripped in places as the whole of the trade at tawa between the Vancouver, Victorias had the ledge stripped in places as the whole of the trade at tawa between the Vancouver, Victorias had the ledge stripped in places as the whole of the trade at the season that the shaft the season the whole of the trade at the season that the season the whole of the trade at the season that the season the season the season the season that the season the season that the season the season that the season that

enthusiastic shorthand writer of the Isaac Pitman system of Phonography, has recently accepted appointment as a member of the Sir Isaac Pitman Memorial Fund for the United States and Canada. Mr. Roberts' jurisdiction covers the entire province. The above committee is working in conjunction with that for the British Isles. Up to the present time the question as to the form the proposed memorial shall take has not been decided upon, as this will, to a great extent, depend upon the sup
length of the United States and now has gone aloft." The Visit-ore, when asked if he had any particular theory as to the cause of the large increase in the company's receipts, replied that it came from the large increase of business in the Northwest and British Columbia. The increase embraces both the passenger and freight receipts.

W. M. Richardson, of Victoria Columbia and the proposed memorial shall take the prospects just now, Sir William Van Horne, when asked if he had any particular theory as to the cause of the large increase in the company's receipts, replied that it came from the large increase of business in the Northwest and British Columbia. The increase embraces both the passenger and freight receipts.

W. M. Richardson, of Victoria Columbia and the prospects just now, Sir William Van Horne, when asked if he had any particular theory as to the cause of the large increase in the company's receipts, replied that it came from the large increase of business in the Northwest and British Columbia. The increase obth the passenger and freight receipts.

W. M. Richardson, of Victoria Columbia and the proposed state of the province for when the company's receipts, replied that it came from the large increase of business in the Northwest and British Columbia. The increase of the large increase of business in the Northwest and British Columbia. The increase of the large increas to a great extent, depend upon the support the project receives at the hands of the public. It might with truthfulness be said that the civilized world is under great and lasting obligation to Six Tool great and lasting obligation to Sir Isaac Pitman for the invaluable system of Brother Brown of H.M.S. Imperieuse rapid writing he has given to us, and it is therefore anticipated that the request for subscriptions to the fund will be promptly responded to. Persons desirous of contributing may send their words by S. D. Bailey.

Inited Service Lodge Winds Up the Annual Installation With a Banquet.

Brethren From Town Are Hospitably Entertained and a Jolly

ing the brethren for the hearty manner in which the toast had been received, and Bro. Hickey, who was also called upon to speak, tool the opportunity of thanking the breth-ren for the kindly gift with which they had presented him that evening. He regretted it would be the last time he would meet the lodge, and he would ever remember the kindness he had received.

Bro. Hickey had next to propose the toast of M. W. G. M. of England, the rince of Wales, which was drunk with Masonic honors and the singing of Go Bless the Prince of Wales

"Sister Lodges," proposed by I. P. M. Beatley, was responded by J. W. Brett, of Victoria Columbia and S. W. Stewart

Ensor Sharp, "The Ladies" and the Tylers' toast completed the list, a special tram car leaving Esquimalt shortly before 1 o'clock to bring the city contingent of guests back to town.

## THE RETAIL MARKETS.

Of the several factors that have gone to make up the retail trade for the past week none is more patent or more interesting than the part taken by the Victoria District Fruit-Growers' Association, whose place of business is in the city market building. Purchasers are finding their way to the premises in greater number every day, and lovers of the fresh fruit that has not suffered the jolting of a wayon in warm sunshine.
