dangers which conspire to make roller skating almost as perillous as building a bondire in a powder magazine. If muscles hitherto unemployed are brought into play what harm is done? It hardly seems possible that any but the muscles of locomotion, including those of the arms, breast and back are employed, and if they are not to be developed why are they put there? Because the air of a rink becomes vitiated sometimes skating should not be condemned. Bedrooms are not always well ventilated, yet our medical men do not disapprove of sleep. Unusual made by those who are doubtful. There can be competitively extent they should be discouraged when they choose to give their muscles are here healthiest in the world, though sat perhaps so delicately beautiful as the women of America are not so over-fond of athletic sports that they should be discouraged when they choose to give their muscles at the healthiest in the world, though sat perhaps so delicately beautiful as the women of America. Let the girls skate, even though they hump themselves occasionally—it won't burt them.

I have not had an attack of my old complaint since, and have gained fifteen pounds in weight."

Some one has discovered that lawyers as a class have much larger heads than editors. The measurements must have been taken in the morning when the lawyers' heads were sweled.

—No time like the present for seeking medicinal aid when, what are foolishly called "minor ailments" manifest themselves. There are no "minor" allments. Every symptom is the herald of a disease, every lapse from a state of heatth should be remedied at once, or disastrous consequences are likely to follow. Incipient dyspeptia, a light costiveness, a tendency to bilious sess should be promptly counteracted with Northrop & Lyman's Vegetable Discovery and Blood Purifier, and the system.

Catarri—A New Treatment.

Perhaps the most extraordinary success that has been achieved in modern science has been attained by the Dixon treatment for catarric. Out of 2000 patients treated during the past six months, fully ninety per cent. have been cured of this stubborn malady. This is none the ess startling when it is remembered that not five per cent, of the patients presenting themselves to the regular practitioner are benefitted, while the patients presenting themselves to the regular practitioner are benefitted, while the patients presenting believed by the most scientific men that the disease is due to the presence of living parasites in the tissues, Mr. Dixon at oxice adapted his cure to their extermination; this accomplished, the catarrh is practically cured, and his cure to their extermination; this accomplished, the catarrh is practically cured, and his cure to their extermination; this accomplished, the catarrh is practically cured, and the permanency is unquestioned, as cures effected by him four years ago, are cures still. No one else has ever attempted to cure catarrh in this manner, and no other treatment has ever cured catarrh. The application of the remedy is simple and can be done at home, and the presentseason of the year is the most.

"Ladies' Journal" Bible
Competition No. 9.

During the year ending with September last, the proprietor of the LADIES' JOURNAL has given a very large and valuable lot of rewards to his subscribers, it will be in time and eligible country pour, and you answer this promptly now, and you may doubtless secure one of the first rewards. If you answer anytime between now and fifteenth February, you may secure one of the middle rewards, and evenif you answer on the last day (15th Feb.) and you live a good distance from Toronto, fifteen days being allowed after date of closing for letters to reach the office from distant points, you are almost certain to secure one of the coss slation rewards. At all events we most heartily recommend it, and trust many of our readers will avail 'themselves of this excellent opportunity of Just as people begin to find pleasure in some new pastime, or see beauty in some novel style of dress, or find solace and satisfaction in some particular food or drink, just es surely do those folks whom we are taught to consiler or little wiser than ordinary mortals, discover the seeds of speedy death in that particular pastime, grament or food. Volumes have been written against the use of tobacco, yet the use of the weed is spreading and the average length of life grows longer instead of shorter. Women have been lectured on the evil effects of corsets, cooneties, colored hosiery, etc. from time immemorial, and yet the average health of the sex is about as good as ever, and there are happy households, loving mothers, and interesting children, and will be as long as the planet revolve.
