ROSS AND HOSMER.

They Will Row Gaudaur and Durnan in the Doubles at Austin.

Champion Gaudaur arrived in the city yesterday from Orillia and spent the evening in company with Messrs. Hanlan, Durnan and several of his aquatic friends here. Gaudaur and Durnan leave per C.P.R. at 7.50 p.m. to-day for Austin, Texas, going by St. Louis, where the two will spend a few days with St. John, the well-known sculling enthusiast of that place. Gaudaur recently received word that Wallace Ross, the Black Brunswicker, and George W. Hosmer of Briston, the Orillian's former partner, would row double and would be their principal opponents in the doubles. Prof. Rice received word yesterday that Manager Crotty would guarantee his expenses, and he will leave for the south about May 1.

Gaudaur says that all negotiations have ceased for a race with the English scullers. He thinks he would have made a match but for the bungling of Dickey Fox.

A GOOD KIND OF COAL . .

Coal with "clinkers" is a nuisance as well as an expense. "Clinkers" interfere with the draft, and not infrequently prevent the heat which good coal should produce. The coal we sell is entirely free from "clinkers" and burns with a strong even heat.

DRINK AND THE DEATH RATE. The British Medical Association appointed a committee to make enquiries in order to average age of the different categories of drinkers, that is to say those who refrain on alcohole drink, those who indulge more or less in moderation, and those who less. Its conclusions are drawn from 4234 deaths, which are divided into five categories.
