 Parties contemplating taking a trip to the Northwest or British Columbia would consult their own interests by calling at the G. T. R. station and getting rates.
D. O'NEIL Agent.
 WATFORD

In this fair, false weather, in which it is colder indoors than it is out, it behooves one to remember that twenty-four cents worth of coal in the stove will ward off about one hundred and fifty dollars worth of pneumonia.

Come to London! Why?
 To consult the specialists of the Tait-Brown Optical Company and have your eye troubles corrected by a pair of properly fitted glasses. We are the only eye-sight experts in Canada who take all the responsibility of your eyes to the making of the glasses complete on the premises.

THE TAIT-BROWN OPTICAL CO.
 EYESIGHT SPECIALISTS
 237 Dundas St. London, Ont.

Science and the Mound Builders.
 After spending three months traveling in Manitoba and Saskatchewan in search of traces of the prehistoric mound builders, Prof. Henry Montgomery, of the University of Toronto, has decided that this mysterious race inhabited the continent as far north as 140 miles above the international boundary line. Mr. Montgomery, who has devoted 25 years to the study of mound builders and cliff dwellers, says he believes the mound builders were related to the cliff dwellers of New Mexico and Arizona and to the Aztecs of Mexico.

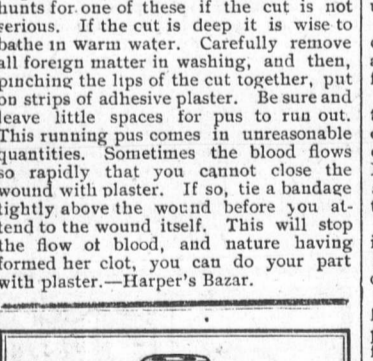

Recurring Headaches. Do They Bother You?
 You find life a miserable affair because you have headaches, but you have neither nausea or are you weak—You know if you could only prevent headaches you would enjoy perfect health.

Such headaches indicate a general lowered condition, because they arise from a general decay of the nervous system. The diseased condition of the nervous system has its origin in the reduction of the quality and quantity of the blood. The blood is thin—its red coloring is reduced—it contains no nourishment. The digestive organs are not supplying it with sufficient nutritive matter. The result—nerve weakness, nerve debility, ill-health.

If you had used Ferrozone you would know how powerfully all the digestive and assimilative functions of the body are stimulated. Ferrozone does more—it supplies all the elements that are essential to the rebuilding of the body—supplies the reconstructive forces that contribute to the formation of rich, red blood.

You see, Ferrozone doesn't treat a system—it remedies a cause—and that's why a month's treatment will absolutely remove every vestige of recurring nervous headaches. Nothing like Ferrozone to build you up, to give the reserve of force, that happy health that contributes so much to happiness and contentment. Ferrozone will make you feel like new, try it—sold by all druggists in 50c. boxes.

First Aid in Accidents.
 A country boy knows that the fine dust of the brown fungi he calls puffballs will stop bleeding. When he cuts himself he hunts for one of these if the cut is not serious. If the cut is deep it is wise to bathe in warm water. Carefully remove all foreign matter in washing, and then, punching the lips of the cut together, put on strips of adhesive plaster. Be sure and leave little spaces for pus to run out. This running pus comes in unreasonable quantities. Sometimes the blood flows so rapidly that you cannot close the wound with plaster. If so, tie a bandage tightly above the wound before you attend to the wound itself. This will stop the flow of blood, and nature having formed her clot, you can do your part with plaster.—Harper's Bazar.

7-PIECE WATER SET, \$10.00
 THE above cut glass Water Set, composed of one jug and six tumblers, which sells at \$10.00 is exceptional value. THE design is one of our latest, while the cutting and finish is unexcelled. EVERY piece bears the stamp "Ryrie," which is the best guarantee of both quality and workmanship.
 Send for our Catalogue.

RYRIE BROS., Limited
 134-138 Yonge St. TORONTO

Lambton Medical Association.

The regular meeting of the Lambton Medical Association was held in Forest, on Wednesday afternoon of last week. Those present were Dr. D. B. Bentley, Dr. J. A. Bell and Dr. J. F. James, of Sarnia; Dr. Wm. Reid, of Wyoming; Dr. F. A. Mulligan and Dr. E. S. McAlpine, of Petrolia; Dr. T. P. Hubbard and Dr. H. N. McCordic, of Forest. Dr. Bentley presided, and subjects of interest to the profession were discussed. The question of establishing a sanitarium for the care of persons suffering from tuberculosis, and inaugurating an educational campaign for the prevention of the disease, was given special attention. It was decided to procure from the Provincial Board of Health a supply of literature on tubercular diseases, to be sent to all the school teachers in the county, who will be asked to distribute the same, and give lectures on the subject. The grant of \$25, made by the County Council, will be used in the distribution of this literature. A committee was appointed to wait on the County Council, at its next session, and urge upon that body the advisability of establishing a county sanitarium. After the meeting the visiting members were entertained at dinner at the Franklin House by the Forest members.

TIME HAS TESTED IT.—Time tests all things, that which is worthy lives; that which is inferior to man's welfare perishes. Time has proved Dr. Thomas' Electric Oil. From a few thousand bottles in the early days of its manufacture the demand has risen so that now the production is running into the hundreds of thousands of bottles. What is so eagerly sought for must be good.

Brown Eyes and Blue.

According to the London Mail, the British Association is asking the public to co-operate in hunting down a secret of which some fascinating hints have just been discovered. The difficulty of investigation is more than noting down the color of eyes in the family. In the light of science there are only two sorts of eyes—blue and not blue. It is a fact that all eyes are blue or blue-grey in ground, but a greater mystery lies in the significant front of the iris. Hence appears a strange law of heredity. It is asserted that where both parents have blue eyes all the children have blue eyes; where both parents have brown eyes all the children have brown eyes; but it is where the parents differ that the alleged law of heredity is most surprising. In this case brown eyes are said to be dominant, and blue eyes excessive, so that of the children of mixed parents three of every four will have brown eyes and one blue eyes.

ENGLISH SPAVIN LINIMENT—Remedies all swellings or inflamed lumps and blemishes from horses, blood spavin, curbs, splints, ringbone, sweeney, stifles, sprains, sore and swollen throat, coughs, etc. Save \$50 by use of one bottle. Warranted the most wonderful blemish Cure ever known.

The Farmstead.

Sunny October! Don't get into a panic about feed. In other words, keep your hat on. What would Kipling write about were he to spend one of these bright days out upon our Ontario farmstead?
 R. J. Baid of Ottawa has assumed charge as manager of the western Bank at Whitby. This bank has proven a friend of the farmers.
 J. G. Cornell of Scarborough reports that the cream producers are anxious for an order similar to the one issued to producers. They have such an organization in Montreal of which Mr. Stephens is the secretary. There is a meeting called for to-morrow at the Albion Hotel.
 The pork packers say that they are losing money on Canadian bacon, if the farmers would cease raising bacon hogs, or hogs at all, who would be to blame?
 The prices for feed of all kinds are high, but many think these are panic prices. They look for lower prices before winter goes by. Parties who are giving away their stock for a song may sing in a higher key in the spring.

Mrs. Chadwick's Old Will.
 Cleveland, Ohio, Oct. 17.—While the body of Mrs. Cassie L. Chadwick was being lowered into the grave at her childhood home, Woodstock, Ont., yesterday, there was made public in this city a will which she made two years before her strange criminal career was exposed. It disposed of over \$1,000,000 in property, much of which was to have gone to charitable institutions. The document was, of course, revoked by the will made since her imprisonment, but would have been totally void in the light of later developments.

When a Woman is Old.
 When she forgets that smiles are more potent than frowns.
 When she becomes slouchy and untidy in dress.
 When she continually looks for trouble.
 When she prefers being "frank" to being pleasant.
 When she allows her nerves to run away with her and her tongue proclaim the fact.
 When she prefers the easy chair and the fireside to any form of wholesome sport.
 When she looks upon the harmless good times of the young people with envy instead of sympathy.
 Infants too young to take medicine may be cured of croup, whooping cough and colds by using Vapo-Cresolene—they breathe it.

What Would You Rather Be?

If an editor makes a mistake he has to apologize for it, but if a doctor makes a mistake he buries it. If an editor makes one then there is a law-suit, swearing and the smell of sulphur, but if a doctor makes one there is a funeral, cut flowers and a smell of varnish. A doctor can use a word a yard long without knowing what it means, but if an editor uses it he has to spell it. Any old college can make a doctor. You can't make an editor; he has to be born.

Dies From Assault.

Charles Baby the Windsor bailiff, who was assaulted on Sandwick street, Windsor, late last Wednesday night, died Thursday noon after much suffering at his home on Slater avenue. William H. Chevalier, a Detroit man, is charged with having committed the assault and is being held pending the decision of the coroner as to whether death was due to the blow struck or the injury sustained when Baby fell on the sidewalk.

PANDORA RANGE

A convenience much appreciated by every owner of a Pandora is the towel rod attached to the range. As one-third of the rod is made of emery, it makes a splendid knife sharpener, too. It's always there handy for you. You need waste no time hunting around for the easily misplaced "steel." Bright idea, eh?

 An accurate thermometer is a reliable guide to successful baking, while an inaccurate one is a "cheat" of the worst kind.

Every Pandora thermometer is carefully adjusted and undergoes a practical test by heat—is proven correct before being sent out. The figures, which show the required degree of heat necessary for the successful baking of bread, cakes, pies, etc., are plainly inscribed in black on a white enamel surface, so that they are easily readable, even when the day is dull. If your local dealer does not sell the Pandora, write direct for free booklet.
