For the Use and Benefit of Farmers.

A Plea for Quality in Fruit.

meeting of the American Pomological Society, Mr. G. Harold Powell gave some excellent advice in regard to growing fruit of first class quality.

Many of the points which he brought

Don't beat the horse. That is Miss Many of the points which he brought out were noted with approval by Mr. W. A. McKinnon, Chief of the Dominion Fruit Division, and are given here for the benefit of Canadian fruit growers. Mr. Powell recommended as summer apples for the United States, Red in remedy, but it required patience. had sometimes sold as high as \$20.00 Miss Messenger's remedy takes just a barrel, the King, the Spitzenberg, a minute. She simply lifts one of the Baldwin, Spy and MacIntosh Red. horse's front hoofs, holds it for a nded top grafting the minute, and when she has dropped it King on two year old Spies, stating the horse has lost its stubbornness.

that in this way a vigorous tree bearing good crops would be of tained.

Regarding the Ben Davis Mr. Powell

Messenger says: made a very cutting criticism, declared it, namely, its color; and stat-

ilar castigation. Its only virtue is its cleanliness, and this Mr. Powell thinks has made it one of the worst enemies the Champion. In other words, rock While well bred horses are seldom

ly of the Elberta peach, but is of the opinion that it also is not an unmixed and unruly in the hands of another. Bad dispositions are generally the redessing to the fruit growers. It is sult of bad management. splendid shipper, but has no qual

such advice is furnished by some to ports of fruit sales just received by the Fruit Division, from London, England. On Oct. 7th there were sold a land. On Oct. 7th there were sold a flavored and ill smelling herbage when large number of half cases of Californian and other American pears, innian and other American pears, including about a dozen varieties. The Seckel, which is generally regarded as Dairymen of too pronounced instincts Seckel, which is generally regarded as a pear of the hignest quality, sold for 12s; the Glout Merceau for 13s, 6d; the Calabash (similar to our Bosc) for the class of the color of the hay Calabash (similar to our Bose) for lls; the Comice (one of the varieties recommended by the Fruit Division) for lls to 12s. If we contrast these prices for those for fruit of inferior quality, we must conclude that the glishman wants only the best fruit that he is prepared to pay for it. and that he is prepared to pay for it. 3s 9d to 4s; Hardy 2s 6d to 3s 9d; mention were "wet," obly ten pence to Is a cask. Large quantities of Canadian apples sold on the same day brought all the way from 10s to 25s per barrel (the latter figure being for The slobbering of horses in my opin-Pibstons, with the great majority at ion is the effect of condition that any 15s to 18s. On Oct. 12, half cases of vegetation undergoes in contact with Comice pears were sold by the same or in near proximity to the ground firm for 11s 6d; while the Duchess variety fetched only 4s 3d, these leng the only two sorts of pears handled tures to be worst, and I believe the that day. The highest figure for apples on that date was 23s, again to the credit of No. 1 kibstone, while the lower prices were 12s for No. 2 Fall Pippins, and 13s. for No. 2 Ribstons and Grazustins. The wife variation of 10s per boll between No.

that quality is sure to tell. BOXES FOR APPLES.

price of apple barrels this season, and the effect of airing in cold weather of the fact that in some districts then. One acid poisming can be cured farmers find it impossible to procure by other acids, and to prove my thebarrels at any price, the Fruit Divi- ory I ask you to feed sour apples iffsion recommends the general use of boxes. These can be had, knocked or the starch in a peck of bran will down, at almost any saw mill for stop them.-Cor. eight cents each, and they should not cost more than ten cents each made up. As three boxes hold about as many apples as a barrel, they will be found much cheaper than | for late corn, but for the farmer who barrels at fifty cents and upwards. is not able to rightly construct one The boxes should be well and strong- we would suggest cutting up the corn by made, and should hold about forty pounds of fruit. The dimensions of the boxes used by the Grimsby shippers are nine by twelve by eighteen inches, while the British Columbia standard box is ten by eleven by eighteen inches, these being inside measurements in both cases. The boxes should be made of strong material, not less than five-eightes of an inch ly made, and should hold about forty and then husking through it is the inches, while the British Columbia standard box is ten by eleven by eighteen inches, these being inside measurements in both cases. The box as should be made of strong naterial, not less than five-eighths of an inch thick for the ends, and not less than three-eighths of an inch to the sines, the tops should have strips across the ends to prevent the weight of other packages, piled on top, from hearing directly on the fruit. It is also usual to leave open corners at the top and minard's Limment cures garget in dotter packages, piled on top, from bearing directly on the fruit. It is also usual to leave open corners at the top and bottom for ventilation. Little or no packing material should be used, as purchasers like to find the package quite fall, of fruit. A sheet of cardboard at the top and bottom will materially reduce the amount of injury from bruises. But it should be remembered that even in this year of scarcity of barrels, it will not do to ship anything but first class fruit in boxes, as the reputation of the Canadian trade in general will greatly suffer if inferior fruit or common fruit is exported in the box or any fancy pa-kages.
