

the Club, has done valuable work in compiling a list of birds new to Ontario which have been taken in the Western Peninsula since the issuance of McIlwraith's revised work. This list appears in No. 11 of the volume of the OTTAWA NATURALIST just completed.

The Treasurer's Report shows a balance on hand of \$61.62.

A Summer School for Teachers was held in Ottawa last July. Several members of the Club delivered lectures in the Nature Study Course and aided in the field work. Dr. White did practical field work with the class in Physical Geography. Mr. Putman delivered illustrated lectures and conducted experimental work in Botany, Mr. Attwood delivered lectures on minerals and did a great deal of field work, Dr. Fletcher gave two lectures on birds and two on insects, Prof. Prince lectured on Fish Life, Dr. Ami on Ferns, Dr. Saunders on Evergreens, Mr. R. B. Whyte on the pleasures of gardening and other members on various other subjects.

The Council desires to call the attention of the Club to the large number of unbound magazines in the library and would suggest the binding of such of these as a committee appointed to make a selection would consider most worthy of preservation.

The thanks of the Club are again due to Principal White for so kindly placing the Normal School at its disposal, and also to the press of the city for its efforts in furthering the work of the Club.

Respectfully submitted.

T. E. CLARKE,

Secretary.

The Library Committee, acting under instructions from the Council of the Club, has almost completed the arrangement of the periodicals in the Library with the object of having them bound. A good many numbers are missing, and the members who have borrowed them are asked to return them to the Library as soon as they conveniently can, so that the Committee may conclude its work. It is hoped that this notice will make it unnecessary to apply directly to those who have the borrowed numbers in their possession.
