

THE OTTAWA HORTICULTURIST: The official organ of the Ottawa Horticultural Society. This new monthly made its first appearance with the January, 1911, issue, and is highly creditable to those who are responsible for its publication. It is not in any way intended to take the place of other horticultural journals, but will be used chiefly for matters of local interest. Besides publishing announcements of meetings, exhibitions, etc., and the Society's Premium and Prize Lists, special articles will appear from time to time on subjects of practical interest to members of the Society.

We extend to our sister Society our best wishes for the future success of The Ottawa Horticulturist.

A. G.

#### NOTES.

CHANGE IN LECTURE PROGRAMME.—The Lecture Committee announce that the lecture before the Club, for the evening of March 7th, will be given by Mr. R. H. Campbell, Superintendent of Forestry of the Department of the Interior, instead of by Mr. W. E. Saunders, of London, Ont. The title of Mr. Campbell's lecture will be, "How the Forest Grows." It will be held in the assembly hall of the Normal School, and will be illustrated with lantern slides. It is hoped that Mr. Saunders will lecture before the Club at a later date.

---

MAPS OF OTTAWA.—The Club has still on hand a number of maps of the Ottawa District, which the Treasurer would like to dispose of. Copies can be had from Mr. Herbert Groh, Central Experimental Farm. The charge to members is 5 cents each, to non-members, 10 cents.

---

A NEW FIELD-NATURALISTS' CLUB.—A society has recently been formed at Picton, Ont., under the name "The Prince Edward County Field-Naturalists' Club" for the purpose of Nature Study and protection and study of birds and native wild flowers, etc. The Ottawa Field-Naturalists' Club extends to this new society its warmest greetings and best wishes for its future prosperity. Our Club was honored by receiving an invitation for our President, Mr. Halkett, to address the new society at one of its winter meetings.
