INDUCTION AT LONDON.

We understand that the Rev. Francis Nicol, who has been acting as Missionary in the city of London for a little more than a year, was inducted to the vacant charge there in the month of December last. The Rev. W. McEwen, of North Dorchester, preached and addressed the Minister, and the Rev. Alex. McKid, of Goderich, addressed the people. The Church owes much to Mr. Nicol for the zeal and prodence he has displayed in re-organizing the scattered congregation of which he is now pastor, and we augur much good from his settlement. In the face of many difficulties the new Church in the course of erection is rapidly advancing.

THE BURSARY FUND.

by Mr. Morris, when in Scotland, the terest excited thereby were not wanting. Committee have agreed to increase their We hope the result will look well in the annual grant to the Bursary Fund of Queen's form of dollars and cents.—A long and in-College to £50 stg., and have meanwhile teresting account of these meetings has reserved the question of its further increase. been sent us by our correspondent, J. C.,

We trust that this well-timed liberality will stimulate the friends of our Church to imitate it, and to come to the aid of the Bursary Committee, as they have solicited them to do. The Fund is a most important one, and has been very useful in the past, and will be yet more so.

Unless, however, it is largely augmented, the Committee will be unable to afford the requisite assistance to many deserving young men, who are struggling to enter the ministry. We hope to hear that the circular of the Bursary Committee has provoked liberal offerings from our people.

THE CONGREGATION OF NEW RICH-MOND, GASPÉ.

We are glad to learn that the Preshytery of Miramichi, under whose supervision the congregation of New Richmond, Gaspé, now is, are giving that congregation missionary supplies. The congregation recently united in a harmonious call to the Revd. Mr. Falconer a licentiate, of the New Brunswick Synod; but, as he is just licensed, he was unwilling to accept a stated charge at present. The Presbytery hope to obtain a missionary from the Colonial Committee. We are satisfied that the interests of our Church in the District of Gaspé will be much better cared for, now that our adherents are attached to the New Brunswick Synod, than they could possibly have been under our own supervision, owing to the remoteness from Quebec. We hope yet to hear of other charges being established in Gaspé ere long, for which there is room. A Presbytery of Gaspé may yet be established, and would be very desirable.

THE HOME MISSION SCHEME.

The important work of visiting congregations and of submitting the necessity, objects and claims of this important scheme, is continuing to be carried on. Difficulties are experienced in organizing deputations, as the gentlemen best qualified are in most cases those who are otherwise most busily employed; and there are difficulties also in arranging for a series of meetings in a particular district, as ministers and congregations have sometimes previous important engagements. Between the 20th and 27th ult, the congregations of Cornwall, Osnabruck, Finch, Williamsburg, Matilda, Lancaster, Williamstown and Martintown were visited by a deputation consisting of the Hon. Judge McLean of Toronto, and the Rev. W. Snodgrass of Montreal. With one or two exceptions the meetings were We are glad to learn from a letter from well attended. Everywhere the statements the Secretary that, in response to an ap- of the deputation were listened to with plication made to the Colonial Committee, great attention, and indications of a lively in-
