Extract from *Indian Economist*.

"We direct the attention of medical men to a fact observed some years since by ourselves, and corroborated by our subsequent experience, that Dr. J. Collis Browne's Chlorodyne is in many cases of Low Fever immensely superior to Quinine in curative power. We cannot persuade ourselves that the true value of Dr. J. Collis Browne's Chlorodyne is yet properly appraised in India. . . . It may be given with absolute safety even to a child three days old. Were medical men but to make a fair and exhaustive trial of it we are persuaded that it would work a revolution in the treatment of two-thirds of the diseases to which children are subject. Its curative power is simply amazing."

"Earl Russell communicated to the College of Physicians that he had received a despatch from Her Majesty's Consul at Manilla, to the effect that Cholera had been raging fearfully, and that the ONLY remedy of any service was CHLORODYNE."—See *Lancet*, Dec. 1, 1864.

From W. VESALIUS PETTIGREW, M.D., Hon. F.R.C.S., England.

Formerly Lecturer of Anatomy and Physiology at St. George's School of Medicine.

"I have no hesitation in stating, after a fair trial of Chlorodyne, that I have never met with any medicine so efficacious as an Anti-Spasmic and Sedative. I have tried it in Consumption, Asthma, Diarrhœa, and other diseases, and am most perfectly satisfied with the results."

From Dr. THOMAS SANDIFORD, Passage West, Cork.

"I will thank you to send me a further supply of Chlorodyne. It was the most efficacious remedy I ever used, affording relief in violent attacks of Spasms within a minute after being taken. One patient in particular, who has suffered for years with periodical attacks of Spasms of a most painful nature, and unable to obtain relief from other remedies, such as opium, &c., finds nothing so prompt and efficacious as Chlorodyne."

From Dr. B. J. BOULTON & Co., Horncastle.

"We have made pretty extensive use of Chlorodyne in our practice lately, and look upon it as an excellent direct Sedative and Anti-Spasmic. It seems to allay pain and irritation in whatever organ, and from whatever cause. It induces a feeling of comfort and quietude not obtainable by any other remedy, and seems to possess this great advantage over all other sedatives, that it leaves no unpleasant after effects."

From J. C. BAKER, Esq., M.D., Bideford.

"It is without doubt, the most valuable and certain Anodyne we have."

Vice-Chancellor WOOD stated that Dr. J. COLLIS BROWNE was undoubtedly the Inventor of CHLORODYNE: that the whole story of the Defendant, FREEMAN, was deliberately untrue.

Lord Chancellor Selborne and Lord Justice James stated that the defendant had made a deliberate misrepresentation of the decision of Vice-Chancellor Wood.

Chemists throughout the land confirm this decision that Dr. J. C. BROWNE was the Inventor of CHLORODYNE.
