Fire! Fire! Fire!

Loss by fire with this last month amounted to

OVER \$1,000,000,

The greater portion of which could have been prevented if the roofs of the buildings had been painted with a

FIRE PROOF PAINT!

Make your houses more secure from the devouring element

FIRE,

—And at the same time—

Preserve Your Shingle Roofs

So they will last as long as your buildings will stand.

Our Roof Paint

We guarantee to be perfectly fire and water proof. The cost is very low,—one barrel will cover 3,000 feet, two coats.

We also manufacture a

FINE CLIMATIC LIQUID PAINT

In all colors, which we put up in tins all ready for use. THIS PAINT is about half the price of Lead and Oil Paint, and will cover more and last longer.

AGENTS WANTED

In every Town and district in Canada. Send early application when sample, colors price list and circulars will be sent.

Eggs! Eggs!

FOR HATCHING.

From my prize winning strains of Light Brahmas (Duke of York stock), Plymouth Rocks (the best kind for general purposes on a farm), Houdans (extra good layers of large sized eggs), Colored Dorkings (superior for table use), Rouen and Pekin Ducks, and my superior strain of Black Bronsted, Red Game Bantams, which have never failed to carry off the leading prizes wherever exhibited, at such shows as the Ontario Poultry Association's Exhibitions at Guolph in 1879 and 1880, and at Brantford in 1881. I have had a long experience in matching these birds, and am confident that those purchasing will be fully satisfied. Price, \$2.50 per setting of 13. Two sittings, made up of one, two or more varieties, \$4. Cash must always accompany the order. Birds of the above varieties constantly on hand and for sale.

PORTABLE SAW MILLS, GRIST MILLS, SHINGLE MILLS, and FARM ENGINES,

OUR SPECIALTY.

WATEROUS ENGINE WORKS CO., BRANTFORD, CANADA.

George Hook writes, St. Ann's, Ontario, June 17, 1879, regarding his 16-horse power Champion Sawmill: "Last week, on Monday morning, three men of us commenced to tear up mill to move it. We tore up, moved three miles, set it up and on Tuesday at three o'clock saved a log with it. Not quite two days in one week we moved and set it up as mentioned, and saved twenty thousand feet. I will write full particulars soon. We saved six hundred feet in twenty-nine minutes—four lumber."

2 sizes built—12 H. P. using 44 in. saw, Capacity 3 to 4,000 per day. 16 H. P. using 48 in. saw, Capacity, 4 to 6,000 per day. Most simple, efficient and portable mill of its size in the world.

12 H. P. capacity, 3 to 4 m. feet per day; 16 H. P. capacity 4 to 6 m. feet per day; 20 H. P. capacity, 6 to 8 m. feet of lumber per day. Weight, 11,500 lbs. to 15,000 lb.

20 H. P. Fire-box Boiler; capacity, 6 to 10 m. feet per day.
25 H. P. Fire-box Boiler; capacity, 8 to 12 m. feet per day.
30 H. P. Fire-box Boiler; capacity 10 to 12 m. feet per day.

Also the same with boiler to build in brick—also with iron frame, saw irons or old fashioned irons, frame to be made of wood at mill site, like small cut to left.

The Standard Portable mills in Canada for 30 years. The most simple, efficient and durable mills built in the world.

Our \$65 Chopping mill uses best French Burr Mill Stone, and will grind equal to any grist mill. Anyone can manage it.
