future contingencies, a circumstance which,
leaking out in some way, led doubtless to the
rumor referred to.

The exorbitant demand for boxwood for
engraving purposes, will evidently soon suffer
great diminution from the fact that the process
of facing ordinary wood with celluloid is being
generally adopted. This is done by laying a
thin sheet of celluloid over the face of a big
block of wood, and the two are shoved into the
hot-press. When they come out the celluloid
has been forced into the pores of the wood an
eighth of an inch, and has made a surface that
is simply beautiful. The block is then cut up
into wood type by the ordinary wood type
machine, or it may be sold to wood engravers,
who find it equal to boxwood.—N. W. Lumber-
man.

T. E. DISSETTE, hatter, Toronto, who assigned
last week, has evidently been falling behind for

the last twelve months. A year ago he showed
assets of \$2,300 against liabilities of about
\$1,000. This is not Mr. Dissette's first misfor-
tune. When in partnership with his brother in
1875 the concern failed, and the brother retired.
He managed to make another start, but got
into trouble again in 1879, and the stock was
sold, but he secured it and resumed operations,
with the present results.—Henry Hogben,
Toronto, removed his saloon business last fall
into the premises on Front street previously
occupied as offices occupied by the T. G. and

A VERY important reason why the food sup-
plies of the British metropolis are obtained so
largely from the Continent or from this country
is that local freights in Great Britain are high.
At a meeting of the East Kent Chamber of
Agriculture statements were made which evoked
bitter comments upon the policy of English
railways. A ton of cheese was transported

Recent advices from Boston say Montreal
will soon have another direct line to the Hub.
The Boston and Lowell railway directors have
lately obtained a transfer of the St. Johnsbury
and Lake Champlain road, extending from
Lunenburg to Maquam Bay, Vermont; this will
give control of a road at head of Lake Cham-
plain, thereby enabling the company to compete
actively for the best traffic. The new amal-
gamation will also enable the Boston & Lowell
to give the inhabitants of Lake Champlain a
short and direct line to the White Mountains.
Montreal has already come into great promi-
nence for the increase of her railroads in all
directions east, and west.
