

# A SPECIAL SILVER MEDAL AWARDED AT TORONTO, 1885

Over 16,000 in use. Awarded 16 First-Prize Medals.

## HEAP'S PATENT Earth or Ashes Closets

Pat'd Nov. '84, May '85, Oct. '85. Also in U. S. A.

**WHAT IS AN EARTH CLOSET?**—An Earth Closet is a mechanical contrivance to conveniently cover excrement with earth or ashes. This covering at once suppresses all odour and gradually absorbs and neutralizes the matter itself. The pail needs to be emptied about once a week, or when full, and the reservoir to be filled when empty—once in two or four weeks perhaps. Nothing could more perfectly answer the purpose. It gives out no odour; it is not ill looking; its usefulness is not limited.

The Earth Closet is regarded as indispensable wherever there are not stationary conveniences in the house; and in respect to smell, "modern improvements" are rarely as satisfactory. It can be placed in a bath room or any convenient place in-doors, or in a shed.

"Twenty-five of these Commodes were supplied to the Mount Royal Hospital, Montreal, and the Medical men and lady nurses in charge expressed themselves well pleased and satisfied with them."

Professor Goldwin Smith says:—"I have pleasure in testifying that the Earth Closet (3) supplied by your Company to houses occupied by members of my household, are found to work extremely well and to be very conducive to health and comfort."

"Very Rev. Dean Boomer (London), is pleased to testify to the value and usefulness of the Bedside Commode, supplied to him by Mr. Heap. It has fulfilled all the promises made for it in the printed circular, and he strongly recommends it for the use of invalids." [We may add, it is a No. 9 Pull-up Commode and stands by the Dean's bedside, he being a confirmed invalid.]

## AUTOMATIC 'DUSTLESS' Cinder Sifter.

EXCELS ALL OTHERS.

### INODOROUS PORTABLE BEDROOM COMMODORE

A—Urine Separator. B—Urine Receptacle. C—Excrement Tank.
