Owing to the extreme low rates of interest prevailing for money. net only in Canada, but also in New York and England, it is difficult to employ the funds of the bank at remunerative rates. Whilst these conditions last, it is not easy to understand why the conditions last, it is not easy to understand why the Dominion Government continues to pay such high rates of interest for deposits. This course operates against the manufacturing and other imdustries of the country, as it compels the banks to charge a higher rate than it would otherwise be necessary to

A resolution will be proposed to the shareholders, asking them to authorize a payment of \$5,000 to a Guarantee and Pension Fund for the officers of the bank, which it is thought advisable to commence.

and all kindred affections.

A new remedy has been discovered for the cure of Catarrh and Catarrha! Deafness in from one to two weeks by the continuous antiseptic treatment. We do not publish the names of our patients cured or resort to bunkum cuts to induce others to take our treatment. A guarantee given in every case undertaken, and no case undertaken unless there is a moral certainty of generally benefiting or effecting a cure. Address all communications to Dr. Kennedy, Director of Institute, 173 Church Street, Toronto.

#### OF THE TONSIL CURED.

This cut represents Mrs. Geo. Hatt, of 239 Simcoe Street, Toronto.

Her case was one of a very dangerous and fatal disease, approaching upon cancer, and quite as deadly and malignant. The disease made its appearance in the right tonsil and was rapidly spreading down the throat. Her color quickly changed. She was growing weaker day by day and had the disease not been suddenly arrested would have fallen a victim to its fatal inroads. Reader, we cured this lady in less than three weeks.

We cured her after she had tried the wisdom and learning of a great man in this city, who did not consider it beneath his dignity and the code of medical ethics to interview our country patients in the Horticultural Gardens and denounce us as quacks. We spare further revelations of this medical creature, because he will die fast enough without our parting kick, but we fear his treatment has planted many a victim ere this. victim ere this.

The hospital imbeciles also had a hand in this case and consulted for some time as to what they should "call" the disease. One suggested diptheria, but another standing by said, "That would not do as it had been too long standing." So they went it blind for a few days till the lady becoming convinced she would die, left and came to us. Remember we treat chronic diseases and deformities in male and female of the blood, flesh, skin and bone, and cure themalso. We cure the errors of youth and the follies of maturer years.

Look out for a case of catarrh next week. It was in the hands of the Great Sun Baker for months before we took it.
