PUTSINGS THEEATENED BY THE TRIPLE ALLIANCE SOME SET BACKS IN THE OFIENT-EVEN CHINA MAKES PICULIAR CONCESSIONS

LONDON Nov. 27 .- European politicians are becoming more juzzledithan ever at the possible complications of the Triple Alliance. The ad-vantages which Austria and Italy will resp from to become more obvious every day, and it is cer-tain that Germany is satisfied with the situa-tion. Italy is relieved from the fear which she has always felt of France, and in the exultation of her deliverance has made claims which would have seemed presumptuous some years ago.

Exactly what returns it yields in a practical way the French must be considered the best judges of, but they have clung to their policy at the cost of no insignificant amount of lives and money. It will be galling to national pride to have their supremacy in the Orient interfered with, but the attacks upon the Budget have shown it to be very likely that economy will outweigh sentiment for the future, and the financial outlook of France is one demanding
