The loss of life as a result of accidents, both public and private, is year by year growing quite alarming. In these days of keen competition, life becomes more complex and the risks people run in following their own vocation is greater. All this increases the likelihood of accidents and the intelligent man is he who is willing to pay out a little now for accident insurance, so that in case his turn comes he will be able to meet his expenses (which go on whether we will or no) when unable to earn. Make no mistake about it, no man is immune from accident or sickness, and if you have anyone depending upon your being able to be at the office or shop every day but Sundays and holidays, then you simply cannot afford to ignore the claims which an accident policy has upon you.

No form of insurance is so cheap from a dollar and cent point of view, and no insurance yields so much real help at the time it is most needed. **It is better to have and not need than need and not have.**

Every little while we are reminded of the many ways in which people may meet with accidents, a fall here, a trolley collision there and so it goes. While our attention is more particularly called to what may be called "spectacular" accidents it is well to remember that by far the largest number of people meet with accidents in the quieter walks of life. The time to carry accident insurance is **all** the time.

For an interesting proposition along the line of accident insurance drop a line or telephone the Ocean Accident & Guarantee Corporation, Traders Bank Building, Toronto.—

The report for 1907 of the Mexican Tramways Company, presented at the shareholders' meeting last week, shows gross earnings for the first eight months of 1908 of \$3,512,510, operating \$1,858,027, net \$1,654,483. Assuming that earnings for the remaining four months are proportionate to August the gross for the year will be \$5,300,000 and net \$2,500,000, compared with \$2,462,037 gross in 1907. The number of directors was increased from nine to fifteen.
