CROPS IN NOVA SCOTIA

The hay crop in Nova Scotia will be the largest for some years, and, notwithstanding the long spell of dry weather, it is thought the root crop will also be a satisfactory one this season, writes a correspondent to *The Monetary Times*. There will be a decrease in the apple crop, and shipments will probably not exceed 500,000 barrels, in comparison with 1,400,000 barrels a year ago. An excellent quality of fruit is looked for, however, and on account of the decreased crop, good figures are being obtained.

The following Canadian issues have been listed in London: Canadian Pacific £1,745,481 cumulative preference fours, £1,766,153 perpetual debenture fours.

HULL'S FIRE RECORD

The number of alarms was 118, 49 more than in the previous year, and the fires number 33, an increase of 11. The amount of insurance was \$55,150, an increase of \$8,457, and the amount paid by the insurance companies was \$18,690, a decrease of \$11,426. The damage without insurance had decreased by \$1,932.
