DRY Goods.-The orders from travellers who are now generally out, cannot be classed as more than fair. A good many western dealers have not yet completed stock-taking, and they with a good many others are putting off ordering till later on. This disposition to defer buying till the goods are really wanted, which was remarked last fall, is still more noticeable this spring, and is rather to be commended than otherwise, as tending to a healthier state of trade. Remittances are not what they should be, and there is more or less faultfinding with most wholesalers. Failures have become rather more frequent in this line and the usual spring "run" has apparently set There is nothing new as regards prices in

FISH.—There is very little demand in this r ish.—I nere is very little demand in this line just now, and values are if any thing easier. Furs.—The collection of raw furs this season is unusually small and business is quiet. Reports of late London sales are to hand. Best quality muskrat sold well at an advance, poor qualities neglected. Skunk sold up about 15 per cent. In Beaver the demand was active for searching, while the best quality sold. for poorer skins, while the best quality sold slowly. Mink sold at advanced figures. We slowly. GROCERIES .- The principal activity is in GROCERIES.—The principal activity is in teas, sales last week aggregating some 6,000 packages or over. In low grade young hysons no lots can now be had under 16½ to 17c., the same goods could be had ten days ago at 15 to 15½c. Finer grades dull. Fine Japans are in demand, and are scarcer, qualities of value 20 to 22c. are not so much asked for but are 20 to 22c. are not so much asked for, but are none too plentiful. A good many blacks are selling on English account at from tenpence to 1/2½d. to expectations. Shoe men say they have good orders but don't seem to be cutting much stock, and are probably waiting to see how payments due about now turn out befor filling orders. Wool.-Mill men as a whole are well employed and seem satisfied.
