

empty purchase fee of Cdn\$0.05 per litre is assessed.

### 3. Additional BRI Service Fees

BRI will offer additional services at additional costs. New services may be added depending upon user demand. The following in paragraph (a) represents an additional service and fee assessed by BRI:

#### a. BRI Transfer Service

If a brewer elects to self-deliver from the LCBO warehouse to BRI stores, the brewer may contract the BRI to transfer product from BRI depots to BRI retail stores at a cost of Cdn\$0.09 per litre.

#### b. Other Fees

None of the above limits the ability of the brewer to engage BRI to perform specialty services on its behalf at an agreed to price.

#### c. Adjustments

Adjustments to additional services and the listing administration fee may be made annually by an amount no more than the provincial CPI based on the most recent 12-month period for which Statistics Canada data are available. Further adjustments to these fees above the provincial CPI may be made annually when justified by, and based on, changes to costs as determined by audited financial statements to verify the actual costs. The justification and basis for such adjustments of these fees above the provincial CPI would be subject to prior consultation by the Parties. In such consultation, the audited financial statements will be available for review by both Parties.

### 4. Listing Administration

There is a one-time listing administration fee of CDN\$22,900 per SKU (Stock Keeping Unit) (per brand package size).

Prior to being made available for sale through BRI, all users must sign a BRI user agreement, and all products must have received all necessary LCBO technical approvals before being offered for sale.

The BRI will sell any beer that meets the LCBO technical listing requirements.
