

Private Bills

Liberal side of the house should be taking a stand on this matter.

We want to know whether other private bills will be introduced here to turn over other sections of our communications systems to the big foreign corporations that already dominate and control an alarming percentage of Canadian industry. This is basically the reason members of this party are determined to dig down, get more information, and expose the stupid and foolish trend to have the whole of Canadian industry controlled by people who live outside the borders of our nation.

If we are ever to become a strong nation in control of the destinies of our own people, we

must take a close look at the problem of foreign ownership. Certainly Bill S-12 must be looked into very carefully.

The Acting Speaker (Mr. Richard): Order, please.

It being five o'clock this house stands adjourned until Monday next at two o'clock in the afternoon. I hope you all have an enjoyable weekend.

Mr. Knowles (Winnipeg North Centre): The same to you.

At five o'clock the house adjourned, without question put, pursuant to standing order.
