Only wants to find facts	32
When the half moons on the thumb nails	33
If the moons are jagged on top	33
A striking fact	34
Why is this?	34
Note—Comparatively few men	35
The records of hospitals, sanitariums .	35
Many thousands of men and women I've tested	35
Often more or less thoughtless	36
Most individuals don't observe properly	36
The most of people haven't the healthy signs on the nails	36
Those who have good solid looking white half moons	37
The nails of those suffering from disease, accident or wound	37
Most boys and girls who cannot study properly, or practice on the piano . .	38
Disease, etc., which greatly impair the system	38
Many years of observation	39
You can tell by the condition	40
If you are overworking	41
If you are often irritated	41
If you apply yourself very earnestly .	41
When the blood looks a dull red	42
When the half moons look about normal	42
When the blood moves	43
When there are dark or dull-like half circles over the moons	43
