BREAK IN WHEAT CARRIED FURTHER

Lower Cables and Large Receipts Offset Brisk Export Demand.

CHICAGO, March 13.—Despite active export demand, wheat today showed weakness because of lower cables, large receipts and promise of rain and snow. Closing prices, the steady, were 1-3/8 net lower. Latest trading left corn a shade to 1-4 to 3-8 down, oats 1-8c off to 1-8c up and provisions 7-12 down to an advance of 12-12c.

Wheat bulls facing disappointing cables at the outset, Russian receipts were said to be increasing; Argentine shipments promised to be larger and there were signs of a normal crop for India. Furthermore, receipts northwest of here were liberal and four sales light. In addition the chances of winter killing weather had practically vanished and prospects of a record-breaking crop were increased by forecasts of additional moisture. Omaha sent word of export sales of wheat at the best prices for the crop and there were also sales here and elsewhere for ocean shipment. Nevertheless, recovery from the early low point proved insufficient to lift the market back to last night's level.

Heavy local selling pressure weakened corn. Notwithstanding the aggressiveness of bears, however, holders were able to prevent more than a moderate decline. Oats were held steady by unusually good cash demand.

Attempts to realize profits unsettled the provision market.

LIVERPOOL GRAIN EXCHANGE. LIVERPOOL, March 13.—The late strength in America yesterday served to offset the effect of expectations of large Argentine shipments this week and the opening was steady, 3/4 lower to 1/2 higher, with pressure in March. Following the opening there was heavy liquidation in March, and this month further declined on larger tenders on contract, rumors of continental reselling recent purchases of Plate wheat and expectations of liberal Argentine shipments to Liverpool this week. Argentine weather favors the movement, and Plate is being offered more freely. The political situation is more favorable. During the morning a large firm supported March on the decline and this resulted in lighter offers and shorts covered and prices reacted sharply.

Corn opened unchanged and continued
