WOMEN HAVE BUSY TIME

FARMERS TAKE ENTIRE DAY TO INSPECT THE EXHIBITION LEAVE AT NIGHT SATISFIED

Young Business Men Take Place of Old Time "Hayseed" - Eager to Learn Latest Improvements in Connection With Agricultural Industry.

Old-time "hayseeds" are no more. Had it not been stated on the program that yesterday was Farmers' Day, it is doubtful if the average observer would have known that such was actually the case.

There has not been a crowd at the Exhibition on any day since it opened that was more keen, more interested, or more appreciative of the splendid displays on exhibition than were the up-to-date farmers who visited the grounds yesterday.

More and more, they as a class are demonstrating the seriousness of the occupation they follow. As year after year adds to the means by which the agriculturist can increase his products, so does he advance in point of production and skill.

Yesterday was set apart for the special benefit and entertainment of those inhabiting the rural sections. The number of visitors was smaller than last year, those on hand were none the less enthusiastic.

Enthusiasm greeted the minister of agriculture of Alberta, when he rose to speak. He was introduced by President Oliver. "I am pleased with the live stock exhibits this year," said Hon. Duncan Marshall, director on the exhibition.

"This is Farmers' Day. I was in Belgium a week before and during the week war was in its height. I saw their mobilization. The men were mostly farmers. During the last two days of my stay, I noticed that all the able-bodied men and the women were led to gather in the harvests."

"These men went to the front in ill-fitting physical condition. They have given a good account of themselves, of which we are justly proud. Their faces were the faces of the men who toil. I have spent three months trying to find the best cultivated land. I found it in Belgium. I traveled for miles, and did not see a weedy field."

"They have very few fences. It is a land of splendid fields of grain. No wonder Germany was able to make such headway across such fields. When I saw the way their land was tilled, I remarked to some friends that if they could till the land as they did, they could till the 'other' business well, too."

"You will find that the men who can meet the demands of the men who are efficient in some one thing, they prove themselves good farmers, and that they have demonstrated to the world that they are good soldiers, too."

"When I returned to Britain I talked to several representative men. Public men as well as military officers told me that nothing which we could give was appreciated as much as food-stuffs. When they heard that Canada was going to send 1,000,000 bags of flour, and that the province which I have the honor to represent was going to send oats, they said these are the things we want. We are glad to have your men to help us in the fight, but remember, the greatest duty Canada can perform is to see that there is plenty of food."

"I am glad of the privilege of speaking to Ontario farmers. It is the duty of every farmer to make every possible effort to sustain life by producing food for the entire at this time. In 1912 Alberta produced 75,000 hogs. Last year she raised 510,000. This year the number will be increased to well over 1,000,000. A careful census taken twelve years ago showed that there were 320,000 cattle in Alberta. Last year there were 1,800,000. We have to thank the breeders of Ontario for a great deal of the foundation stock."

"Let us hope that this war is the last war. Let us hope that the end will mean the disarmament of the nations. It is the result of a condition. You cannot go on training men for war and then sending them back to office walks in life."

"There can be but one result. When it has been accomplished the sword will truly be turned into a plow share, the spear into a pruning hook. Go on Producing. Those of us who are not at the front

AMERICANS' DAY

One of the most interesting features of Walter Dean's exhibit under the grand stand is a 18-foot mahogany motor launch, built for general lake and river purposes. The new model has several new features that will undoubtedly bring it into the favor of canoe, built in the factory at the winding boat in Monday's sports, is also shown. Of the five canoes in the race the first four to finish were made by Walter Dean. The reputation of the Dean boats is continental and each year a large part of the factory's output goes outside Canada. In the display is shown a full line of rowboats, canoes, motor boats and dinghies.

CANADIAN FORCES TO USE EARL DERBY'S GROUNDS?

OTTAWA, Sept. 9.—The Earl of Derby has offered his private grounds for the mobilization of the Canadian expeditionary force in England. It is understood they will be attached to one of the armies now being raised by Lord Kitchener.

DEATH OF P. P. RAINER.

BROCKVILLE, Sept. 9.—P. P. Rainer, of Chicago, Ill., who was taken suddenly ill with heart trouble two weeks ago, while spending the summer at his cottage on Wolfe Lake, near Brockville, died today in the St. Vincent de Paul Hospital. Mr. Rainer was the head of the International Freight Traffic Association of Chicago and was prominently identified with the Masonic order.

MAJOR WYNNIE DEAD.

WINNIPEG, Sept. 9.—Major John Reynolds Wynne, formerly of the firm of Martin, Beale & Wynne, died here today, aged 72 years. He had been in failing health since March last, when he was stricken with paralysis. Major Wynne had been a resident of Winnipeg since 1892. He was a member of the Canadian Blesley team on several occasions and had been identified with the 9th Regiment since coming here from Montreal.

PRINCE OPERATED ON.

ABERDEEN, Scotland, Sept. 9.—(Via London, 1.15 p.m.)—Prince Albert, second son of King George, has been operated on for appendicitis. His condition is reported today as satisfactory. Prince Albert was taken from the British cruiser Collingwood in the early part of this month and brought here for the operation. He is an officer in the British navy.

BRITISH NURSE WOUNDED.

PARIS, Sept. 9.—The Journal says that the wounded arriving in Paris yesterday was a young British nurse, who had been struck by a German bullet as she was attending a wounded German soldier.

This is Americans' Day

This is Americans' Day. It is expected that as such it will be one of the big days of the Exhibition. There is to be another distinction, however. Royalty will be guests. T. R. H. the Duke of Connaught, the Duchess of Connaught and Princess Patricia will be the welcome visitors. A special car will convey the Duke to the grounds and it is expected that he will arrive shortly before one o'clock. He will be the principal speaker at the directors' luncheon. Following that he will review the Boy Scouts and the veterans. There will be a parade of live stock which will be patronized by the Duke. He will later be conducted thru the buildings. A further special item of interest will be the singing which is to take place by 1000 school children. Sir Wilfrid Laurier also will attend the luncheon.

PROMINENT EXHIBITORS

Dean's Canoes. One of the most interesting features of Walter Dean's exhibit under the grand stand is a 18-foot mahogany motor launch, built for general lake and river purposes. The new model has several new features that will undoubtedly bring it into the favor of canoe, built in the factory at the winding boat in Monday's sports, is also shown. Of the five canoes in the race the first four to finish were made by Walter Dean. The reputation of the Dean boats is continental and each year a large part of the factory's output goes outside Canada. In the display is shown a full line of rowboats, canoes, motor boats and dinghies.

Bird's Dining Hall.

Probably no other restaurant at the Exhibition grounds is receiving such a patronage as Bird's Dining Hall, opposite the western grand stand entrance. In the large, spacious permanent building two courses of meals are being served—50 and 25 cents. The service is acknowledged to be superior at the Exhibition, and as evidence the proprietor points to the large number of regular patrons.

CASES OF DESTITUTION BECOMING NUMEROUS

Women's Patriotic League Will Find No Lack of Work To Do.

Necessity for immediate action on the part of all who have either the distribution of labor or financial assistance in their charge was demonstrated at a meeting of the executive of the Women's Patriotic League, held at the headquarters yesterday. Numerous cases of destitution were brought to notice. The statement was made that fifty dressmakers are already without employment, and that many young girls will be absolutely without shelter if provision is not made for them. Thirty-five cases where assistance was necessary had received temporary relief. A letter was read from Colonel White, secretary to the minister of militia, stating that \$20 would be given monthly to the wives or dependents of the soldiers who are absent on active service. Lady Gibson and Mrs. Hocken have written, consenting to act as patronesses to the Women's Patriotic League.

AT SHEA'S.

After a successful continental tour, Mabel Berra, the musical comedy prima-donna, and late star of The Eternal Waltz, will appear at Shea's at the head line of next week's bill. Miss Berra possesses a voice of remarkable range and of surprising sweetness and clarity. She will render a number of the most musical compositions, Franklyn Ardell and company will offer as a special feature Mr. Ardell's sketch, "The Musical Comedy," which will be presented by B. A. Rolfe and company as a most elaborate musical offering, with the extra attraction of a grand scenic investiture and gorgeous costumes. The act will present a most impressive and novel production. A new series of songs and stories, while Law and Molly Huntling have a satirical comedy sketch, "The Musical Comedy," which will be presented by B. A. Rolfe and company as a most elaborate musical offering, with the extra attraction of a grand scenic investiture and gorgeous costumes. The act will present a most impressive and novel production.

LOEW'S WINTER GARDEN.

"When It Strikes Home," one of the latest of the Roland West plays, will be the headline feature of the new bill at Loew's Winter Garden for next week. The sketch has a unique theme, which involves several powerful situations, and the sensational order. The play will be new act presented by Gwynn and Gossett, who appear in a musical sketch called "The Golden Wave." Bert Powell, character comedian, will present familiar types in song and story. The Six Officers, in a whirlwind acrobatic performance; Clarence Wind acrobatic performers; McCleod and Carp, instrumentalists, with the violin and banjo; Homer and Markey, and comedy team; Winstanley and Smith, and others complete the entertainment.

HACKETT IN "THE TYPHOON."

That popular player, Norman Hackett, will be seen at the Grand next week in his clever impersonation of the young man who is the hero of "The Typhoon." Laurence Irving made a deep impression when in this city last year with "The Typhoon." Hackett is a capable actor as Mr. Hackett in the famous Irving role should arouse considerable interest.

STAR THEATRE.

Sim Williams, who presents the "Moorish Maids" at the Star Theatre near the Hippodrome, commencing Monday afternoon, with daily matinees, is a firm believer in giving the theatrical clientele his money's worth and little bit more. One of the scenes in the elaborate production he will present here is that of the sacred gardens of the Sultan of Morocco, and there are shown the veiled beauties of the harem.

AT THE GAYETY.

Dave Gordon, who has gained an enviable reputation in the burlesque field as a producer and actor, has been successful in his latest production, "The Girls of the Gay White." The features of the show are Frank Burr, Maude Rockwell, Benjie Small, Ed Jerome, Johnnie Walker, Jimmy Gallagher and Flo Davis. As a special addition to the company, Fred De Haven and Helen Eley, who have just returned from the Hippodrome, London, where they attained great success.

WAR SHOWS WORKING OF DIVINE PURPOSE

God Has a Voice in It, Declaration of Rev. Professor Law.

Rev. Professor Law declared the war to be "a satire on Christendom" in his address at the service of intercession, held by the Toronto Presbytery at New St. Andrew's Church, at noon yesterday. One thing was clear, declared Professor Law, it was that God had a purpose, a meaning and a voice in it. It was important for Christians that they did not pay so much attention to the exciting features of the war as to interpret God's message to their faith and conscience.

URGENT POSTPONEMENT OF COMPENSATION

Manufacturers Press for Delay in Operating Workmen's Compensation Act.

Strong representations are being made to the Ontario Government, urging the postponement of operation of the Workmen's Compensation Act beyond the opening of the year. According to general expectation, the commission would be in readiness by Jan. 1 to hold court sessions for the hearing of those who had come to injury in provincial industrial life. It is learned, however, that since the outbreak of the European war some of the requests from manufacturers who are feeling the pinch, go so far as to propose postponing the beginning of operations for an indefinite period. This would be contrary to the spirit of a measure adopted in the last legislative assembly, setting the date not later than the new year.

CABINET CONSIDERING

Financial Depression Claimed Too Severe to Allow Assessments.

In presenting their requests, the manufacturers interested point out that the depression would make the levying of the preliminary assessments fixed by the act most onerous to them. These sums are to be raised to meet the claims for compensation in the first year, to meet the expenses of the board for the year, and to provide the nucleus of a reserve fund. Whether the assessment take the form of a payroll percentage or of a special fund, it will be equally hard to meet, is the claim.

ROUND-UP OF TRAMPS.

ST. CATHARINES, Sept. 9.—In an unsuccessful search for the man who assaulted a young girl yesterday, a squad of men from the 19th Regiment found a dozen tramps seated about a camp fire in a bush near the water works. The men were arrested and brought to jail here to permit of further enquiries to be made. The man wanted for the crime is still at large.

OBJECT TO EMPLOYING AMERICAN ENGINEERS

Special to The Toronto World. ST. CATHARINES, Sept. 9.—Formal complaints have been made by Canadian unions that seventy-five per cent. of the portable and hoisting engineers employed by contractors on the Welland Ship Canal are Americans, in contravention of the Ontario statute. The complaint has been made up to this move. It was stated that the men are asked to protest to Hon. James Duff.
