

the whole. The stone should be about the size of a man's head, and while one or more is applied to the patient, more may be heating if necessary.

A REGULAR COURSE OF MEDICINE.

First, give No. 2, and No. 6, in a tea of the composition powder, or in a tea of No. 2, then steam; after steaming, the patient must be put in bed with a steaming stone at his feet and take a dose or two more of the hot medicine; then take the emetic No. 1, and repeat as occasion may require to cleanse the stomach; this will also assist in keeping up the perspiration. When the emetic is done operating, give an injection according to directions, (see directions.) When there are nervous symptoms, or nervous affections, or spasms, add half a tea-spoonful of nerve powder to each dose, and into the injection. In the intermediate times of vomiting, the patient should drink milk porridge, chicken broth, or the like.

This operation will be sufficient for once, and may be repeated every second, third, or fourth day, or as the case may require. In violent cases where immediate relief is needed, No. 1, 2, 3, and 6, may be given together. No. 2, and No. 6, and the composition, are given to raise the internal heat, and bring on a perspiration; the steam is applied to open the pores and aid on the perspiration. No. 3, is given to remove the canker, and heal the stomach and bowels.

In slight attacks of disease a whole course of medicine will not be necessary; your judgment must be used, what medicine to give, and how much. In all cases of long standing and severe attacks, a whole course of medicine will be neces-
