

As One Man Said to Another

"There are lots of clothing stores in Toronto, but Oak Hall's way of treating their customers suits me to a dot."

This is suit time and we are busy fitting out men of all builds from the slim ones to the big, stout, solid men to whom nature has been generous.

You see we are an ALL CLOTHING store and we know the needs of a man better than even a tailor does. It's our pet hobby and we are continually digging up new ideas and bettering (when we can) old ones. We know for a positive fact that thousands of men in Toronto cannot and will not be bothered with the old-fashioned idea of picking out cloth and waiting till the tailor cuts and fits, and in many cases makes a botch of the job. Very few men nowadays go to a shoemaker and leave their order, and why should clothes be any different? Our Salesmen are all practical men of intelligence and integrity and will not sell you a garment that is not absolutely right for your particular figure, so that you are in good hands when you trade with us.

WHAT'S IN A PRICE?

Nothing, without value behind it in the materials and workmanship, so that when we quote you our men's and young men's suits from \$10, \$12, \$15, \$18, \$20 and up to \$38 we are sure they have all the essentials that go to make good clothes.

STORE OPEN TILL 10 P.M. EVERY SATURDAY NIGHT.

CUDDY PENSION COMES UP ON THURSDAY

Police Commissioners Did Not Discuss It Yesterday—Another Constable Leaves the Force to Get More Money Elsewhere—What First-Class Constables Think.

Owing to the absence from the city of Mayor Geary, the police commissioners will meet again Thursday to consider the question of the passing of Ex-inspector Cuddy's pension, which was not considered at the meeting yesterday afternoon. The resignation of Policeman McKnight, who has served four years on the force, was received. One more man on the verge of becoming a first-class constable leaves the force to seek a living elsewhere.

Police Chief Grasset does not like being asked about resignations. Asked if there had been any he snapped out the answer that there had been one. After the admission that one man had signified his intention of leaving the force, he explained that the force was filling up more rapidly than the men were leaving, and that many of those coming on are trained men from the old country forces.

Later he admitted that this influx was only making up the shortage which was found at the end of last year, save for the addition of a few men. The chief thinks it will be about 15, all that is possible with the reduction made by council in the board's estimates.

Serve Five Years. These "trained men" must serve out a long five years before they become even first-class constables unless they are so lucky as to become acting detectives before that time. They may be given a chance at the police work of plain clothesmen, when they will receive in addition to their princely stipend the magnificent sum of \$40 per year to compensate them for having to wear citizen's clothes instead of the uniforms supplied.

Doing Good Work. One man who has been on the force for many years said to The World yesterday: "If you can do anything toward bettering the condition of the first-class constables you will be doing a big thing for the citizens as well as the force. The man has only a bare livelihood at present, and it seems absurd to expect any intelligent service from men who are receiving less than a thousand dollars a year, which is the case when the benefit fund percentage is deducted. When you consider the expense of everything has advanced—food, rent and everything which comes in as a bare necessity of life—you must see that \$1200 a year is a little as a man can draw and serve with credit to himself and the force. A man who works in plain clothes and gets only an additional \$40 for the added expense is indeed put to it at present."

How the Black Bread of Guatemala Became Famous.

Guatemala is a town of about 1500 inhabitants some eighty years ago. When, one day during the maneuvers of the young lieutenant, he took up his quarters there relates Harper's Weekly. This lieutenant came from Pomerania, where they also make black bread of fine quality, but he liked better the peculiar flavor of the Westphalia article. His name was Bismarck.

As there are any who can get up some pumpernickel with butter? Some number of reporters were present when this query was made, the first they asked was whether bread was made, and it speedily became the fashion all over Germany. The craze for Westphalian pumpernickel spread far and wide, cunningly furthered by the bakers who now baked for export only small one-pound loaves, for the purpose of making it look "more like a delicatessen."

The bakers of Guatemala were worldly-wise, for from the same kneading-troughs there go into the oven first the huge loaves (certainly of these go to the farmhouses often weighing half a hundredweight) and then, shaped of what is left, the tiny loaves that are wrapped in paper and exported to all parts of the world to be sold as a delicatessen.

Raising Kids for Their Skins. One of the important industries of France is the raising of kids for their skins, which are used for glove-making. This work is carried on chiefly by the mountaineers, says Harper's Weekly. Softness, delicacy and freedom from blemish are principal factors in the value of kid skins, and to secure these essentials great pains are taken.

When the kids have attained a certain age, at which the skins are in the best condition for the use of the glove, they are killed, and the hides are sold to dealers. The superior quality of these kid skins, due to climatic conditions, is what has given France supremacy in the manufacture of the finest grades of leather kid gloves, a supremacy that will doubtless long be maintained, inasmuch as foreign manufacturers must rest content with second-rate skins.

C. N. R. WANT LEASIDE ANNEXED

Say They Have Tempting Offer to Submit—North Toronto Council Will Take It Up Thursday Night.

NORTH TORONTO, June 4.—(Special)—The Canadian Northern, thru their representatives, Mr. Temple and F. C. Clarke, submitted to the town council to-night a scheme for the annexation of the Leaside railway properties aggregating in all 1200 acres, and asked that it be included with the boundaries of the town. The property is bounded on the west by Bayview-avenue, on the east by Woodbine-avenue, the north by the Kilgour property, and to the south by lot 12, concession 3 from the bay. Mr. Temple stated that it was proposed to erect a large railway shop and factories employing 3000 men and in addition lay out a high-class residential town for the housing of their workmen. Leaside would be on the direct line east and west and it was desirable that town advantages in the shape of sewers, sidewalks, electric lighting and other conveniences should be installed. The presence of the town's sewage disposal plant was an objection and this would be attended to by annexation took place. Council were apparently impressed with the proposal and at Thursday night's meeting the matter will be taken up again.

William Mulock, Jun., representing the Melrose Park Company, succeeded in getting the committee's recommendation for the annexation of 80 acres of York Township land lying to the northwest. The report of Engineer Black showed \$191,000 gallons of water pumped in May in 401 hours, an average of 198,000 gallons per day, at a cost of 68 tons of coal. The committee wrestled for a long time with the double-tracking of Yonge-street, the Metropolitan Rail-

feeling of the district is that a new one would not be amiss. Richard West has complained to the constable about the systematic stealing of his lumber, which has been carried on for some time. Mr. West has considerable lumber piled up at Amber Bay, and claims that nearly every night some four or five planks disappear, which, by the end of the week, makes quite a hole in the lumber pile.

VICTORIA SQUARE

The Victoria Square Branch of the Women's Institute will hold their supplementary meeting on Thursday, June 6, at 8.30 p.m., at the home of Mrs. O. Hagerman, Richmond Hill. Program: Dr. Jennie Smellie, Toronto; Dr. Riedon, Toronto, will give a talk on care of children's teeth, presided by Mrs. Currie and Miss Jean Scott; solos by Mr. D. Atkinson and Miss Trench. Lunch provided. Everybody welcome.

WEST TORONTO

WEST TORONTO, June 4.—(Special)—Stanley Lodge, A. P. & A. M. held a largely attended and most important meeting to-night in the Masonic Temple, Annette-street. A large number of visiting brethren from sister lodges were present as guests of Stanley and assisted in doing honor to the Grand Master, M. W. Bro. Aubrey White, who was accompanied by R. W. Bro. W. D. McPherson, D.G.M.; R. W. Bro. H. C. Scully, D.D.G.M. for Toronto District No. 11; R. W. Bro. W. F. Bilger, D.D.G.M. for Toronto District No. 11A, and other grand lodge officers and distinguished brethren. Ald. Sam Rydine headed a deputation from Runnymede to the board of control to-day to ask for the annexation of that district to Toronto. Runnymede has a population of 3000 and covers about 400 acres. They have two schools and want police and fire protection and better water and sewerage facilities. The council will consider the matter on Thursday and obtain material for a report. Three classes of the Intermediate grades at Western Avenue School were transferred to the new Annette Street School because of the overcrowding at the former. The classes were originally transferred to Western Avenue from the Carlton School and the majority of the children have walks of from two to three miles between school and home. The new Earlscourt public school which will soon be completed will relieve much of the overcrowding at the neighboring schools.

The third form of the Humberdale Collegiate Institute are now champions in baseball of the entire school district. The right to that title in this afternoon's game with the second team. The latter were left far behind with an overwhelming score. The silver and ebony shield will be presented to the victors this week by the athletic association of the institute. At well and Cross composed the winning

TODMORDEN

TODMORDEN, June 4.—The East York Township Conservative Association of Todmorden will hold their monthly meeting to-morrow (Thursday) night in Bates's Hall, that date being the twenty-first anniversary of the death of the late Right Hon. Sir John A. Macdonald.

Exhuming a Prehistoric Palace in Guatemala.

Dr. Edgar L. Hewett, director of the American section of the Archeological Institute of America, is now at work digging an ancient palace out of a swamp and sifting the earth therefor valuable curios. This palace is located in the midst of a tropical verdure in the heart of Guatemala, and is a relic of the Mayas, who thrived, carved statues and built palaces and temples when the Egyptians were building their pyramids and the Roman Empire was in process of formation. It has lain under the silt and vegetation for centuries. Dr. Hewett says that trees are growing out of the roof of the structure, which is in the forest near Quirigua, so long has the place remained buried.

The Mayas were an intelligent, warlike and highly educated race. Some of their stone gods are the largest pieces of structure the world has produced. The riddle of the time of their highest culture, and of their origin, has never been solved, and it is in hope of being able to read the mysteries of the dawn of history, Dr. Hewett, with his assistant professors and workmen, are now digging and excavating in the swamps of Guatemala. Dr. Hewett will report to the Smithsonian Institution the Archeological Institute and to the Panama-California Exposition department of archeology, all three of which institutions are backing the expedition.

About one-third of the world's product of pig-iron is accounted for in the United Kingdom, United States and Germany. The 100-mile survey across the Great Australian desert for the proposed railway between western and southern Australia gives a hint of the amount of unexplored territory in this island empire.

WOMEN'S CLUB HAS GOOD YEAR New Officers Were Elected and Good Reports Presented at Annual Meeting Last Night.

Most of the two hundred members of the Business Women's Club attended the annual meeting at the lecture hall of the University School, Bloor-street and Spadina-avenue, last night. Miss Lean, the retiring president, who after serving for the first two years of the club's history, declined re-nomination, was in the chair. Miss Lean spoke with enthusiasm of the growth of the club from twenty members two years ago to ten times that number to-day, and urged a membership campaign for the summer to bring it up to 500 by the opening meeting in the fall in the first Tuesday in October. The retiring president accepted nomination on the executive.

The reports of the reading and visiting circles and of the lecture committee showed a year of great progress and activity. Balance of \$300. The financial report was inspiring, with a balance of \$300. Votes of thanks were tendered to Mrs. O'Sullivan and Miss O'Sullivan for interesting the proceedings with instrumental music, to the university authorities for the use of the hall and to the retiring officers.

The following officers were unanimously elected for the coming year: Honorary president, Mrs. Parker; president, Miss B. Hunter; vice-presidents, Miss Myers; and Miss Smart; corresponding secretary, Miss M. Myers; recording secretary, Miss Watkins; treasurer, Miss Brown; executive, Misses Dearborn, Lean, McLaren, Duncan, Bruce, Sanborn and Mrs. Fox.

As soon as the young animal begins to graze the value of its skin declines, for with a grass diet the skin immediately becomes coarser and harder in texture and its chief merit thus vanishes. It is, therefore, kept closely penned, not only to prevent it from eating grass, but also to protect its valuable skin against accidental injuries that might impair its marketability.
