## ALIENS IN THE WAY.

Interfere With and Spoil Work of

Church Army in Canada.

(Canadian Associated Press Cable.)

London, May 30.—The Church Army

has addressed a letter to the home sec-

retary, drawing attention to the fact

that the efforts of the society to im-

prove the condition of the labor mar-

ket by sending unemployed to Canada

are largely nullified by the influx of

aliens. Mr. Gladstone replied, prom-

ising consideration of the matter un-

der the care of the Church Army sal-

ed the C.P.R. steamer Lake Erie. A

permanent situation has been guaran-

teed for all emigrants.

The secretary of the east end emigra-

tion fund said the return of dissatis-

fied emigrants to Canada is less than

5 per cent. An official of the

Canadian government emigration offices

said the failures are not more than 2½

per cent, actually much lower.

## SAFETY.

Never in all the history of transpor-

tation has travel been safer than it is

today. Seated in perfect comfort in

any of the mile-a-minute trains of the

Lake Shore Railway you are in less

danger by far than was your grand-

father in the lumbering six-mile-an-

hour stage of a half or three-quarters

of a century ago. Trains over this

line are protected and guarded in ev-

ery device that skill or money can

provide is used without regard to the

expense and in spite of the high

speed. In fact, in the world—you

are as safe here as in your own home.

Combined with safety and high speed

are luxurious comforts and service un-

equalled the world over. See that your

ticket reads "via Buffalo and the Lake

Shore Railway" and write for full in-

formation to J. W. Daly, Chief Ass't.

The Wornout Nerves,

The Weak Heart,

The Tired Brain,

The Wasted Strength.

What a multitude of women there are

who feel that these words exactly suit their

case. From early morning until late at night

they have been on the go, year in and year

out, attending to the daily household

duties, looking after the rest of her time

children and spending the rest of her time

attending to social and church work. Is it

any wonder then that sooner or later there

comes a general collapse? The action of

the heart becomes weak and palpitating,

the nerves become unstrung, the brain feels

in a whirl half the time and the usual force

of vitality is lacking.

It is at this time a woman should look

after herself. If she does not, serious

female disorders may set in and often cause

weary months and years of helplessness

and miserable suffering. What a woman

is something to build up something to equal

this purpose there is nothing to equal

MILBURN'S HEART

AND NERVE PILLS

They are the women's friend in every

sense of the word.

They will strengthen the weak heart,

tone up the aching, aching nerves, make

the brain clear, and restore the lost vitality.

Mrs. George Lohmes, Stanley Section,

N.S., writes: "I was greatly troubled

with weak and dizzy spells and was so

tired I could not attend to my household

duties. I bought two boxes of Milburn's

Heart and Nerve Pills and after taking

them I found that my trouble had

passed away. I am now strong and healthy

again."

BOMBS FOR MOST HATED MAN  
COSSACKS TAKE VENGEANCEAttempt to Assassinate Gov-Gen-  
eral of Kutais Brings Terrible  
Reprisal on Surrounding Crowd.Borjomi, Transcaucasia, May 30.—An  
attempt was made on the life of Gen.  
Alikhanoff, governor-general of Kutais,  
last night as he was about to take a  
train for Tiflis.Two bombs were thrown at him and  
exploded in the midst of the party, se-  
riously wounding Alikhanoff, a member  
of his staff and several Cossacks.The remainder of the Cossacks imme-  
diately formed up and fired indiscrim-  
inately into the crowd, killing many  
persons. In addition the Cossacks burn-  
ed the ground buildings in the vicini-  
ty into which the people had fled.Gen. Alikhanoff, the "pacifier" of Kutais  
Province, is the most hated man in  
the Caucasus. For several months  
he has been the target of the revolution-  
ists, they being in full possession of the  
railroad from the Black Sea to the Sur-  
am tunnel, which they had blown up in  
January. Alikhanoff despatched a  
column of Cossacks, who crossed moun-  
tains and rivers and sword laid waste  
the fertile Rion Valley.The general announced that at the  
first town reached he proposed to make  
the people's grandchildren remember  
his name. His vengeance was horrible.  
Hundreds of the inhabitants, mostly  
Georgians and Mingrellians, were slaugh-  
tered by the soldiers and others were  
executed. Many of the men were driven  
into the mountains and the women  
were given over to the Cossacks. Fifty  
villages were absolutely wiped out.  
The atrocities committed attracted  
the attention of the whole country and  
were the subject of bitter complaints.

## IN ILLNESS HIS ONLY HOPE.

Woman Thief Swallows \$300 Dia-

mond, Which Jeweler Can't Get.

Omaha, Neb., May 30.—Like Shylock  
and his pound of flesh, Timley L.  
Coombs has been placed by the courts  
in the dilemma of not being able to  
claim his property awarded by the  
judge, except at the risk of killing a  
woman. In this instance the pound of  
flesh is a \$300 diamond in the appendix  
of a self-confessed shoplifter.Mac Thomas swallowed the diamond  
Saturday in the retail store of T. L.  
Coombs & Co., jewelers. From a tray  
of diamonds on the counter he re-  
moved the handsome stone and con-  
cealed it in her mouth. To avoid being  
found with the diamond on her person  
when searched she swallowed it. Fear-  
ing appendicitis she later confessed to  
the police, who confirmed the story by  
taking an X-ray photograph."The diamond is yours," said the po-  
lice judge to the jeweler yesterday.  
"Take it, but if you resort to surgical  
operation against the prisoner's will  
and she dies, you can be held for  
murder." The jeweler said the dia-  
mond cannot be removed without an opera-  
tion, as the X-rays showed it to be  
lodged in the intestines.Arrangements have been made for a  
series of lectures by Prof. Wm. Winsor  
of Boston, and president of the Boston  
College of Vitaphone, commencing  
Thursday night with a lecture on "Mat-rimony" at Associated Hall and con-  
tinuing Friday and Saturday nights,  
with lectures on "How to Become Rich"  
and "How to be Healthy."  
His theories are declared to be found-  
ed on the science of Vitaphone, which  
is a method of character study based  
on genetics, phonology and elocution.It is the purpose of the lectures to  
inculcate a high ideal of life based on  
scientific righteousness and correct  
companionship, occupation and health  
culture. The lectures are free and  
superbly illustrated with stereopticon  
portraits of prominent people, shown  
without darkening the room. The clos-  
ing feature of the lecture Thursday  
night will be a tableau of seven young  
ladies and seven young men, selecting  
life companions according to scientific  
principles.

## A Big Advertising Deal Just Closed.

One of the biggest advertising deals  
ever closed in Canada has just been  
closed, and which proves that Canadian  
firms are not far behind our brother  
merchants across the water. The W.  
Murray & Co., Limited, the well-known  
drygoods house of Toronto, is the firm  
which has just closed this big deal,  
whereby the street war cards on which  
will be printed some special items, will  
be changed every day, the same as the  
advertisements in "The World," their  
place being taken by the public something  
new all the time.

## BLOWN UP BY NAPHTHA.

Schooner Scattered to the Four  
Winds, But the Crew Escape.Millville, N.J., May 30.—While crew-  
ing of sloops of the oyster fleet were dredg-  
ing above Maurice River Cove, in De-  
laware Bay, an explosion, as if caused  
by a submarine mine, blew a large  
part of the schooner Hampton to atoms,  
hurled the deck, with the captain and  
a crew, a considerable distance, and  
scattered debris over the water for  
hundreds of feet.The schooner was equipped with  
modern gasoline machine dredges and  
carried large tanks of naphtha, which  
was stored in the hold, in some un-  
explained manner, were exploded. Near-  
by most before anyone realized what had  
happened the schooner plunged to the  
bottom of the bay.The strangest feature of the act was

the crew of five men were not injured.
