

MALARIA, CHILLS AND FEVER, FEVER AND AGUE CONQUERED!

RADWAY'S READY RELIEF

Not only cures the patient seized with this terrible foe to settlers in newly-settled districts, where the malaria of Ague exists, but if people exposed to it will, every morning on getting out of bed, take twenty or thirty drops of the READY RELIEF, in a glass of water, and drink it, and eat a piece of cracker or crust of bread, they will escape attacks. This must be done before going out.

A person going out in a malarious atmosphere with his stomach empty and his system weakened, and inhaling this malarious poison, the absorbents at once take it up, and circulate it through the system. The READY RELIEF, being a **Neutralizer, Disinfectant, and Diffusive Stimulant**, at once settles the stomach and protects it against the ill effects of the malaria. It disinfects the malarious and acid gases from the malaria of Ague; it quickens the circulation of the blood that has been checked and clogged in the vessels from the influence of the malaria; it arouses to healthy action the liver, spleen and gastric organs, imparting strength and vitality to the gastric juices and nervous fluids, prostrated and dormant from the deadly influence of the malaria. Its diffusive stimulating properties impart strength and vigor throughout the entire system (local stimulants augment the action of one set of organs by suspending others). In a word RADWAY'S READY RELIEF braces up the entire system, and drives out every particle of malarious poison that may exist. In these cases it is necessary to regulate the liver, spleen, stomach, skin and kidneys to a healthy action; this is secured by RADWAY'S PILLS. Now let any person seized with Fever and Ague, as soon as the fever is off or the chills on, take a teaspoonful of READY RELIEF in water, every hour for six hours, and rub the spine of the back with the RELIEF clear; follow this up every day. To those that are subject to attacks, either every day or at longer periods, it will do more good than all the quinine and other remedies in the world. Take RADWAY'S PILLS in large doses every night, and a cure will soon be made, after which a teaspoonful of READY RELIEF in water three or four times per day before meals, and two or three of RADWAY'S PILLS at night, will protect every settler in Ague districts against attacks. Let this be done if you wish to avoid attacks of Fever and Ague or any other Malarious Fevers. For the prevention and cure of the disease alone, RADWAY'S READY RELIEF and PILLS are worth a farm to every settler. **No home or family should be without these remedies.**

Prevention of Chills and Fever.

HUDSON RIVER BRK MFG. Co.,
VERPLANCK POINT, N. Y., Jan. 7th, 1879.

DR. RADWAY: My family are in the habit of trusting entirely to your Ready Relief and Pills as our household medicine, rarely requiring any other medical aid. I myself follow closely your directions in taking the Ready Relief as a preventive for Chills and Fever, say a teaspoonful in some water before my breakfast on an empty stomach when I visit my yard, as I am accustomed to do, at that time. The result is a perfect success, as I never take the fever, although I am located in a most malarious district, in which few of the residents escape malarious attacks, particularly of Chills and Fever.

My men and those who have come from Mr. Frost's yard experience the same beneficial effects by following a like practice as myself.

Very truly yours, JOHN MORTON, Proprietor.
