American Market. CHICAGO, May 14.—The peculiar irregularity of the wheat market was the exceptional feature on 'change tothe exceptional feature on 'change to-day. May wheat opened at \$1 39 per bu, a recession of 20c from yeter-day's closing price. Leiter showed a day's closing price. Leiter showed a disposition to protect his property, however, and the close was at \$1 44% a net loss of only $5\frac{1}{4}$ c. July fluctuated over a range of $5\frac{3}{4}$ c, closing at \$1 041/2, a net gain of 1/4c. September did better and finished at an advance of 11/2c. Corn and oats closed with a of about 4c each. Pork showed and advance of 5c, but lard and ribs | 36s; closed at a decline of 2½c each. Wheat opened weak, Liverpool reported 2d loss for May, 41/2d for July, and 21/2d for September. London reported selling of cargoes at 1s decline. Continental markets also showed extensive liquidation. Under these influences May wheat here started at a loss of 20c per bu, or at \$1 30. July began at a loss of 24c to 3c below yesterday's closing, selling at \$1 011/4 to \$1 02. Chicago receipts were 367 cars, compared with 7 last year; Minneapolis and Duluth reported 498 cars, against 346 a year ago. Primary receipts aggregated 797,000 bu, compared with only 347,000 bu the year before. Atlantic port clearances for the day were equal in wheat and flour to 467, bu. Beerbohm's estimated the world's shipments for the week at 8,000,000 bu. With this bearish array of statistics professional bears rapidly regained their nerves and put out short lines with more assurance than has been descernible in the past fortnight. They reckoned without their host, however. Through various brokers Lieter gradually absorbed offerings, and shortly before the close the short sellers found themselves pocketed. In their anxiety to even up, July was advanced steadily to \$1 07. Half an hour before the close a realizing movement set in which could not b stemmed. July went off ½c at a quotation, touching \$1 04 just before the gong sounded. A slight rally carried it back to \$1 041/2, closing with sellers at that price-a net gain of 4c. May opened 20c lower, at \$1 30. The price was practically nominal, the recession of 20c being found necessary on a scale of 15,000 bu. Leiter picked up the offerings, and on his evident willingness to support the price, it was advanced at the close to \$1 44%, show-common to fair, \$3 60 to \$3 80; culls to ing, however, a net loss of 51/4c. The bulk of new business, which is rapidly being transferred through the ef-

The heavy receipts of corn and opening weakness in wheat made a heavy market for the former at the opening. The rally in wheat and provisions later in the day and the good cash demand caused a change in the tone and the recovery of the early loss, with an addition of %c or so besides. Receipts were 959 cars. The week's exports were 6,077,000, and for the day Atlantic port clearances were 755,000 bu. Chicago receipts were 646 cars; trading was active, July opened 11/80 to 14c lower, at 354c to 35%c, advanced to 361/sc, split and closed at 36c to 361/sc sellers, a gain of 1/sc to 1/4c. Oats ruled very nervous, covering early caused a good bulge, and the improvement was lost at the end f Nos. 83 and 85 Front street, Toronto, the profit taking. Chicago receipis says: were 300 cars, and seaboard clearances amounted to 254,000 bu. British and American Comment

Opinion of the London Times-U. S. Senators and Representatives Pleased.

London, May 16.—The articles in the London press this morning are mostly running commentaries on the opinions of the press of Europe and America regarding Mr. Chamberlain's speech. The Times thinks that "Mr. Chamberlain will accept foreign rebukes with equanimity and find compensation in the reception given his words by our kinsfolks across the sea." The manner in which the Times regards the recent and present momentous changes in the political situation of the world, which Mr. Chamberlain's speech focussed so effectively for discussion, is shown by its printing five columns of comments by foreign correspondents. The Times declares that "the nation Ruling prices for the past four market days—

WHAT IS A CHRISTIAN?

[By Ian Maclaren.] Christ did not come to cramp anyne's manhood. He came to broaden it. He did not come to destroy our manhood; he came to fulfill it. A thoroughgoing Christian is a man with a stronger reason, kinder heart, firmer will, and richer imagination than his fellows-one who has attained to his height in Christ. A bigot, or a prig, or a weanling is a half-developed Christian, one not yet arrived at full

What ought a Christian to read? Every book which feeds the intellect. Where ought he to go? Every place where the moral atmosphere is pure and bracing. What ought he to do? Everything that will make character. Religion is not negative, a giving up this or that, but positive, a getting and a possessing. If a man will be content with nothing but the best thought, best work, best friends, best environ-ment, he need not trouble about avoiding the worst. The good drives out the bad. There are two ways of lighting a dark room; one is to attack the darkness with candles, the other is to open the shutters and let in the light. When light comes, darkness goes. There are two ways of forming character; one is to conquer our sins, and the other is to cultivate the opposite virtues. The latter plan is best because it is surest-the virtue replaces

the sin. Christianity is not a drill; it is life, full, free, radiant, and rejoicing. What a young man should do is not to vex himself about his imperfections, but to and was treated by some of the best physicians in Canada. I was recompared in the bright image of Parfection; not to work in the bright image of Perfection; not to weary his soul with rules, but to live with Christ as one liveth with a friend. There is one way to complete manhood, and that is, fellowship with Jesus Christ.
